The Delight of Children

The self-developed, inner-flavour of **NEW POST TOASTIES** bear a unique attraction for the kiddies—they even like them dry from the package for their lunches. A box of Toasties provides "eats" that will delight the children.

NEW POST TOASTIES are usually served with cream and sugar, in which form the flavour is more pronounced and the flakes more delicious. These **NEW TOASTIES** do not "chaff" or crumble in the package and they don't mush down in cream—both common defects of old-fashioned "corn flakes."

Then, too, notice the tiny bubbles on the flakes, produced by the quick, intense heat of a new patented process of making which imparts delightful crispness and a substantial body to the flakes.

NEW POST TOASTIES are a vast improvement over any old-style "corn flakes."

For tomorrow's breakfast—
