

Bring Smiles

NEW POST TOASTIES were perfected to overcome the defects of old-style corn flakes. And the hearty welcome they have received is ample proof that their superiority is recognized.

NEW POST TOASTIES have a self-developed, inner-flavor—the rich flavor of choice Indian corn. Try a handful dry—they're mighty good that way, and the test will prove that, unlike common flakes, they do not depend on cream and sugar for their palatability.

NEW POST TOASTIES do not "chaff" in the package, and they don't mush down in cream like common "corn flakes." The NEW POST TOASTIES are identified by tiny bubbles on each flake—produced by the quick, intense heat of the new process of manufacture, which also develops their wonderful new flavor.

Have your grocer send a package for tomorrow's breakfast.

New Post Toasties

GERMAN SUBMARINE IN AMERICAN PORT

U-Boat Crosses Ocean With Valuable Cargo of Drugs and Dyes.

Baltimore.—The world's first submarine merchant vessel, the German underwater liner Deutschland, anchored below Baltimore after voyaging safely across the Atlantic, passing the allied blockading squadrons and eluding enemy cruisers watching for her off the American coast.

The new submarine vessel carried a quantity of mail estimated at 150 tons and a cargo of 750 tons of costly chemicals and dyestuffs and is to carry back home a similar amount of nickel and crude rubber sorely needed by the German army.

The vessel was sixteen days out from Bremerhaven to Baltimore.

One of Captain Koenig's first acts after he moved his ship up the harbor from quarantine was to announce that the Deutschland was only one of a fleet of mammoth submarines built or building for a regular trans-Atlantic freight and mail service.

The captain asserted that his voyage had established the fact that a submarine of the type of the Deutschland could travel anywhere that the ordinary vessel could go, 13,000 miles, if necessary. He had no fears, he said of his ability to elude enemies that might be waiting for him off the Virginia Capes when he starts his return trip.

During nearly the entire voyage to America, said Captain Koenig, the Deutschland traveled on the surface. Once she submerged for 10 hours, and lay during that time on the bottom of the English Channel to escape British destroyers.

Allies Ask U. S. to Examine Diver.

Washington.—The British and the French embassies officially called the state department's attention to the arrival of the German super-submarine Deutschland, and asked that this government assure itself of the vessel's character.

FRENCH CARRY HILL OVERLOOKING RIVER

London.—On both eastern and western fronts heavy fighting persists. With the capture by the French of La Maisonnette hill, which dominates the valley of the Somme, and from which everything that happens in Peronne can be observed, one of the primary objects of the Anglo-French offensive has been achieved.

The British official statement says that the Germans have entered the Trones wood and records further progress east of Oyllers and La Boisselle in addition to a footing secured by the British in the Mametz wood, where part of the Germans had resisted all efforts.

The German official communication admits French possession of Biaches, only a short distance from Peronne.

The Russians continue their advance toward Kovel and now are engaged in a pitched battle along the banks of the Stokhod, which they have crossed at some points. On the rest of the eastern front, while there is continuous fighting at many places, no important change occurred. Both sides are concentrating their efforts on the Lutsk salient to the east of Kovel.
