OMNIBUS REVENUE BILL PASSES HOUSE

Measure Providing for New Taxes Gets Vote of 240 to 140.

Washington.—The administration omnibus revenue bill, creating a tariff commission, imposing a protective tariff on dyestuffs, repealing present stamp taxes and providing for new taxes on incomes, inheritances and war munitions profits, passed the house by a vote of 240 to 140.
 On the final rollcall the democrats voted solidly for the bill and were joined by 34 republicans, five progressive republicans, one independent and one socialist.
 The bill, which now goes to the senate, increases the surtax on incomes ranging from an additional 1 per cent on incomes between \$20,000 and \$40,000 to 10 per cent additional on those above \$500,000 and taxes transfers of estates valued at \$50,000 or more and net profits of war munitions manufactured, with an exemption to those having less than 10 per cent profit. The new taxes are expected to yield \$197,000,000 annually. The tariff commission would be composed of five members, no more than three to be of the same political party, and would have broad powers of investigation.
 Representative McArthur of Oregon voted against the passage of the Kitchin revenue bill. Representatives Hawley and Sinnott of Oregon voted for it. The four republican representatives from Washington voted against the bill, as did the two representatives from Idaho. Representative Dill (dem.), of Washington, voted for the bill.
Suggestions From Carranza Awaited.
 Diplomatic conversations which it is lomatic conversations which it is hoped will result in a settlement of differences between the United States and the de facto government of Mexico, await a suggestion from General Carranza as to how they should proceed. State department officials believe more can be accomplished through informal conferences between Eliseo Arredondo, Mexican ambassador-designate, and Frank L. Polk, acting secretary of state, than by a more formal exchange of views.
 Mr. Arredondo transmitted to his government a brief and friendly note handed to him by Secretary Lansing, expressing gratification over the turn affairs between the two governments have taken, and accepting proposals for diplomatic settlement of points in dispute.
Await Report on Russo-Jap Treaty.
 Awaiting a full report from Ambassador Guthrie at Tokyo, administration officials maintained absolute silence regarding the new Russo-Japanese treaty and its possible effect upon American interests in the Far East.
 It was hoped that this report would define to some extent the meaning of the phrase "Russian and Japanese special interests," whose protection is guaranteed in advance summaries of the treaty text.
 This government is interested in knowing whether the new treaty will in any way affect the "open door" through which American bankers might expect to enter China with any legitimate proposals for loans.
Fifty Year Leases for Surplus Power.
 The house committee on irrigation of arid lands has favorably reported a bill by Congressman Smith of Idaho authorizing the secretary of the interior to make leases for the period of 50 years for surplus power developed on any of the reclamation projects, giving preference to irrigation districts organized under state law and to municipalities desiring to use such power.
 The Smith bill provides that receipts under excess power leases shall be covered into the reclamation fund to the credit of the project where the power is sold.
