

TALES OF THE TOWN

The nicest courtesy you can show your guests is to have their visits mentioned in The Sentinel. The nicest courtesy you can show your friends is to let them know of your visits through a news item in The Sentinel. The nicest courtesy you can show the editor is to bring to the office a complete write-up of any news item you know. Let's have courtesy all around.

press my views on a subject that I think is very important? I know the stand The Sentinel has previously taken in regard to this matter. It is the same as our own.

We would like to ask the city council what they expect we farmers can do with our teams when we drive to town where no hitching racks are provided to tie to. It is not always convenient to put our teams into a livery barn when we intend to stay only an hour or two. Aside from the expense, it would be a nuisance to be obliged to unhitch for so short a time.

Almost every live town thinks it is a duty to provide racks to accommodate the farmers. The city cannot afford to lose the farmers' trade. We think the farmer does not need the city any more than the city needs the farmer. We each have need for the other. It would be an easy matter for us to do our trading through the mail order houses. Then we would not need hitching racks. We could drive in to the postoffice, the depot or the express office without tying up at all. But we do not wish to do this. We think too much of our own home town. Just treat us right and I think as a general rule you will find us willing to do our part.

Let us work together for the good of our community. If hitching racks are insupportable could not some way be found to overcome this objection?

Yours truly,
WOMAN'S WORK COMMITTEE,
Grange No. 443.
