BATTLE OF SOMME BECOMES VIOLENT

French and British Making Supreme Effort to Batter Way Through German Lines.

London.—The battle of the Somme has now reached the high pitch of violence. Against the concentration of picked German troops the French and British are striking blow after blow in what appears to be a supreme effort to force a way through the German line.

British troops in the region of the river Somme in France increased their gains in the neighborhood of Guillemont, says the British official statement.

The British forces pushed forward to 1500 yards east of Guillemont village and secured a hold on the Leuze wood. Further south a strong German system of defense on a front of 3000 feet around Falfemont farm was captured.

The official announcement says that the fighting on the Somme since September 3 has resulted in the capture by the British of the whole remaining German second line of defenses on the battle front from Mouquet farm to the point where the British line joins the French.

The capture of Soyecourt and Chilly by the French makes a total of 29 villages taken since the start of the offensive on the Somme front. The positions wrested from the Germans were powerfully organized.

Vigorous counter attacks were made by the Germans north of the Somme in an effort to regain ground taken in the new drive of the French. The French war office announced that the Germans were repulsed with heavy losses.

GREECE ASSENTS TO SCHEME OF ALLIES

Athens, via London.—A policy of full co-operation by Greece with the entente allies under a coalition cabinet, as a preliminary to active intervention, has apparently been decided on. The new plan involves indefinite postponement of the elections and the continuance of Zaimis as premier, with the support of Venizelos.

The Greek government, it is understood, has decided to agree to demands of Great Britain and France for full control of the posts and telegraphs, to prevent information from reaching their enemies and to the expulsion of Baron von Schenck and 60 of his adherents who have been working in the interests of the Teutons.

There are indications that the allies will also ask to be allowed to use Piraeus as a base for the supplying of the western wing of the army in the Balkans and that this will be permitted.

ZEPPELINS RAID ENGLAND

One Airship Brought Down in Flames Near London.

London.—One of a squadron of German Zeppelins which raided England Saturday night, with London and the eastern counties apparently as their objective, was brought down in flames, an official announcement says.

Three airships only were able to approach the outskirts of London. One of them appeared over the northern district about 2:15 in the morning, where she was picked up by searchlights and engaged by anti-aircraft guns and aeroplanes. Soon the airship was seen to burst into flames and fall to earth.

The ship was destroyed, the wreckage, engines and half-burned bodies of the crew being found at Cufley, near Enfield.

The other two ships which approached London were driven off without being able to approach the center of the city.

Unorganized Workers May Protest.

Chicago.—Employees of the railroads other than the members of the four brotherhoods are to make a determined fight upon the Adamson eight-hour law, according to Robert Frazier, an employee of the Nashville, Chattanooga and St. Louis railroad, here. He claimed to have secured many signers to a petition to congress protesting against the law.

Roumanians Driven Back.

London.—The first day's fighting on Roumanian soil, due to the invasion of Dobrudja by Bulgarians and Germans is said by the Bulgarian war office to have resulted in the retreat of the Roumanians, who left hundreds of dead on the field.

Shipping Bill is Passed.

Washington.—The administration shipping bill was finally disposed of in congress, when the house without a record vote concurred in all senate amendments.

SATISFY!

—what does that mean?

It means that NEW quality, in a cigarette, that does for your smoking exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do far more than just "please" you—it must let you know you've been smoking.

That's what Chesterfields do—they satisfy! And yet they're MILD!

For the first time in the history of cigarettes, here's a cigarette that satisfies and yet is mild! Chesterfields! Other cigarettes may be mild, but they don't satisfy.

BUT, Chesterfields satisfy—yet they're mild!

This is new enjoyment for a cigarette to give. It is something that no cigarette, except Chesterfields, can give you—regardless of price.

Why?

Because no cigarette maker can copy the Chesterfield blend!*
