

EUROPEAN OWNERS ORDER MANY SHIPS

Heavy Demands on Shipbuilding in America to Continue After the War.

New York.—Norway and other Scandinavian countries will continue to make heavy drafts on the shipbuilding and manufacturing resources of the United States while the war lasts, and for at least a year after it ends, according to Trygve Barth, of Christiania, Norway, one of four representatives of leading financial and commercial interests in Norway, who arrived here on the steamship Bergensfjord from Christiania and Bergen. They are to remain here for some time, investigating manufacturing and financial subjects of interest to Norway. According to Mr. Barth, Norway has placed orders with American shipyards for more than \$200,000,000 in new ships since the war began, which are building in Portland, Seattle, San Francisco and Philadelphia.

Also on the Bergensfjord came seven Norwegian steamship captains, who are to inspect and take back to Norway some of the vessels that have been built.

According to several passengers, the Norwegian ship owners have determined to use a great fleet of vessels in the Pacific and make a bid for a greater part of the business now conducted under the Japanese flag.

JAPANESE LABOR ON COAST FORMS UNION

San Francisco.—The first step in an attempt to solve the Japanese labor problem on the Pacific coast was taken here with the announcement that nine Japanese labor unions, which will affiliate into a separate Japanese labor council, have been formed and that the movement would be extended through California, Oregon and Washington.

B. Suzuki, president of the Laborers' Friendly society of Japan, who fathered the organization of the Japanese unions, declared that he would have 30,000 Japanese workmen in California members of such unions within a year.

When this is accomplished, as it will be in California, Oregon and in Washington, no longer can it be charged that the Japanese here are a menace to the American wage earner.

Mr. Suzuki expressed the hope that within a year or so the Japanese union would be permitted to affiliate with the American Federation of Labor.

CAR SHORTAGE IS SERIOUS

Railroad Men Say Conditions Will Be Further Aggravated.

New York.—Railroads of the United States are suffering from the greatest shortage of cars ever experienced at this time of the year, according to figures made public here. On September 30 there was a net shortage of 61,030 cars. This compares with a surplus of 131,027 cars on October 1, 1914, and of 78,299 on the corresponding date last year.

The greatest shortage is in box cars, totaling 33,016, while coal and gondola cars total 19,872. The greatest shortage of box cars is in the granger states.

Railway men say the high point of the shortage will be reached next month.

Villa Defeats Carranza Troops.

El Paso, Texas.—United States government department agents here declared they had obtained reliable information that Carranzista forces had sustained a severe defeat in the two day running fight with Villista handbats and that Villa's forces were now only a few miles outside Chihuahua City. The call for Carranzista reinforcements from Juarez is regarded as an indication that the situation is serious.

Loss of Bremen Feared.

Washington.—Loss of the German submarine merchantman Bremen virtually was conceded by ranking Teutonic diplomats in a position to be familiar with the movements of the vessel. The Bremen is now one month overdue.

Washington Not Alarmed.

Washington.—Officials indicate that as an international affair little importance is attached to the action of France in seizing an additional square mile of territory contiguous to the French concession in Tien Tsin, in defiance of the Chinese foreign office.

Miller's Estate Is Put at 40 Millions.

San Francisco.—The estate of Henry Miller has a valuation close to \$40,000,000, it was stated by officials investigating the affairs of the late cattle and land king.

Again for \$1—While They Last This \$2.50 Aluminum Cooker

The cost of Aluminum has doubled since we ordered these lifetime Cookers. At present prices, this offer would be impossible. So, in all probability, after our supply is exhausted, it cannot be made again.

Next week the grocers of this city will once more feature this Quaker Cooker offer. And for the last time, we believe.

We have supplied Cookers now to over 1,000,000 homes. We have supplied \$2.50 Aluminum Cookers for \$1 to Quaker Oats users. But this offer ends with our present supply, and probably forever. Unless Aluminum drops 50 per cent, we cannot again offer a Cooker like this for \$1.

But next week only we make the offer below. You can get this Cooker for \$1, by buying two of our cereals which should be cooked in it.

This offer is made to induce better cooking. To bring you Quaker Oats and Pettijohn's cooked in perfect form, with the flavor kept intact. Our reward will come in your doubled delight in these foods. But we supply only one to each family.

Unless you have the right flakes, right cooking does not help much. But, if you use Quaker Oats and Pettijohn's, this cooker is yours for \$1. This is for one week only. Get the packages from any grocer named below.

One Week Only—Your Last Chance

Our Offer Is This: Purchase two packages of Quaker Oats and one package of Pettijohn's or three packages of either. Get a Sales Slip from your grocer showing the purchase. Send us check or money order for \$1 with the Sales Slip and we will mail the cooker by parcel post. We ask the Sales Slip just to show that you use our cereals. Sales Slips must be mailed next week. This offer applies in this vicinity only. Address The Quaker Oats Company, 205 Maynard Building, Seattle, Wash.

Quaker Oats

The Extra-Delicious Vim-Food
Flaked from Queen Oats Only

All the world over, Quaker Oats holds first place among oat foods. Oat lovers of a hundred nations send to us to get it. A billion dishes are consumed each year. Nowhere in the world do connoisseurs find any oat food to compare with it.

The reason is this: Quaker Oats is made from queen grains only—just the big, plump, luscious oats. No puny, starved grains are included. A bushel of the choicest oats yields only ten pounds of Quaker.

The result is a flavor which has won the world—a flavor which is matchless. Yet these large and luscious flakes cost you no extra price.

Nature stores in oats a wealth of vitality, which everybody needs. We want you to know this fascinating vim-food, made as we make it and cooked in our way.

Pettijohn's

Rolled Wheat with 25% Bran Flakes
A Modern Bran Dainty

Every doctor advises bran, as essential to right living. It is Nature's laxative. Everybody every day should eat it. It means better health, better spirits, sunnier days. Without it, our diet of fine food forces folks to drugs.

Pettijohn's is made to meet doctors' requirements. The bran is hidden in flaky flakes of wheat. The food is a morning dainty which everybody likes. Yet it contains 25 per cent tender bran.

The bran is in flake form, which makes it doubly efficient. Ground bran will not do.

Try Pettijohn's one week. Note its delightful effects. Never again will you go back to a branless diet.

Then try Pettijohn's Flour. It is 75 per cent fine patent flour mixed with 25 per cent bran flakes. Use it like Graham flour in any recipe.
