

"See Moody and See Better"

The Service

—under which we make our glasses is the development of 27 years' experience.

We have no competition in our method of making glasses.

This service is not obtainable anywhere else simply because it is a personal, distinctive, individual application of those things we have learned in prescribing, designing, making and fitting glasses.

Our Service

Because it is personal, distinctive and individual, assures you glasses that are satisfying to your personal; distinctive, individual needs.

Send your broken lenses by messenger boy at our expense.

An Absolute Guarantee Our Motto

That insures you Good, Dependable Service

¶ We give an absolute guarantee for complete and abiding satisfaction with every pair of glasses that we prescribe and manufacture.

¶ We give you a whole year to prove that they are entirely to your satisfaction. Should they not prove so you are welcome to have your money refunded.

¶ A confidence in our ability, born of long experience, study and investigation, justifies us in making such strong and binding guarantees. We know we can make them good by the excellence of our service.

—The best possible service for the least money.

Don't worry if you break your lenses. Phone us. We will have new ones ready when you call.

Best and quickest optical service in the state. Portland excepted.

Our glasses save you money, time and temper.

Strenuous living is hard on the eyes—get glasses.

Let us adjust your glasses without cost.

Our Kryptok, invisible, one-piece bifocal glasses keep you looking young.

We take care of your eyes, in the way of lens changes when needed, for one year from date of purchase. Also for the same length of time, we replace broken or defective mountings free of charge.

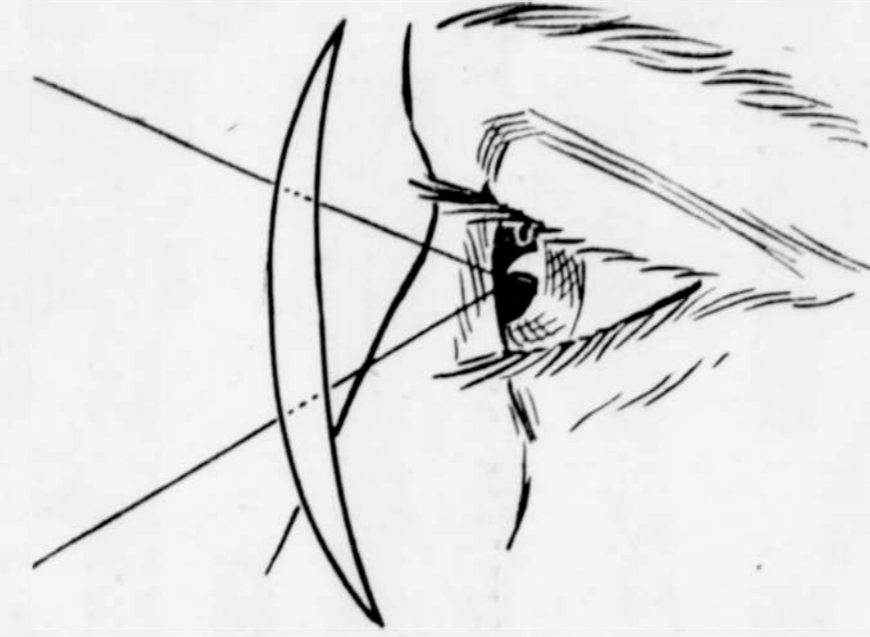

Doing one thing well—making good glasses.

KRYPTOK LENSES

Do Not Mar Good Looks

No one can tell you have double-vision glasses when you wear Kryptoks. No seams, lines or cement. They are not freakish in appearance.

Six Good Reasons

Why we can give you Good Eye Glass Satisfaction

- 1—Our new methods are the latest and most scientific.
- 2—New equipment and up-to-the-minute instruments.
- 3—Twenty-seven years' active experience and study in eye testing and diagnosis.
- 4—We use the best lenses obtainable in our work.
- 5—We do all our own grinding, and know it is done right.
- 6—Last, but not least, our prices are as moderate as possible for good work well done.
