Samples of products from flax produced at the Oregon state penitentiary have been received from California by R. B. Goodin, secretary of the state board of control, and will be placed on exhibition. The articles included linen huck towels, shoe twine, wrap twine and sack twine, all of which appeared to be superior products.

## 3 MEASURES READY FOR CONSIDERATION

### Congress to Get Down to Actual Work This Week on Immigration Bill.

Washington.—Congress will get down to actual work this week. Three measures are ready for immediate consideration. They are the District of Columbia prohibition bill, immigration bill and corrupt practices measure.

The immigration bill with its literacy test probably will pass the senate without prolonged discussion. The prohibition bill for the District of Columbia is to be urged by Senator Shepard for the democrats and Senator Kenyon for the republicans. Its passage by the senate is expected.

The house probably will do little except routine work until after the Christmas recess.

Nation-Wide Food Probe Is Planned. Officials conducting the government inquiry into the high cost of living virtually have completed a program to place before President Wilson and Attorney-General Gregory, providing for simultaneous grand jury investigation through the country.

It is understood that in addition to the officials now directly engaged in collecting information, others may be named.

It was said that doubt no longer existed as to whether there had been combinations of men to increase coal prices, and that effective means to punish those who have violated the law in contributing to the rises were being studied.

Labor Men Seeking Substitute Plan. Congressional action on President Wilson's railway legislation program probably will await the result of efforts of labor leaders to draft as a substitute for all forms of compulsory arbitration a plan for dealing with strikes, actual and threatened, which will be agreeable to all concerned.

The determination of the president to try to make impossible such a situation as he faced last September in the railroad dispute has aroused all branches of labor to the greatest activity. The unofficial alliance between the American Federation of Labor and the four railway brotherhoods, arranged for the purpose, among other things, of opposing "dangerous legislation," is bearing its first fruit in conferences between representatives of both organizations for the purpose of drafting a plan that will shelve all compulsory arbitration bills.

Belgian Deportations Still Go On. With publication of the American protest to Germany on the deportations of Belgians, state department officials disclosed the United States government has exhausted its means of diplomacy and has laid the case before American public opinion, from which it will expect to draw guidance for the next steps, if any be taken.

Germany's reply, conveyed in conversations with Charge Grew at Berlin, by Chancellor von Bethmann-Hollweg, is that the deportations are regarded as justified on the grounds of social necessity.

Official information shows also that the deportations are continuing.

The state department feels that it has gone far beyond the usual diplomatic bounds in its protest to Germany, and that in a strictly conventional sense it had almost no right to discuss the matter at all with Germany.

Embargo Closes Ports. New Orleans and Galveston Only Available Trade Routes to Europe.

Chicago.—Announcement that all eastern roads were in the embargo on shipments to the Atlantic coast left only New Orleans and Galveston as the commercially practicable trade routes to Europe for middle west munitions makers and other war goods producers.

The entire list of Atlantic seaboard ports is closed by the embargo on shipments, every line in the Eastern Freight association having issued an order which strikes at the export business. Makers of certain goods for domestic use are affected by the embargo, as well as makers and producers of goods for export.

Munition Contracts Not to be Renewed. Toronto, Ont.—Chairman J. W. Flavell of the imperial munitions board of Canada, returning from England, declared no munitions contracts would be placed in the United States by the board after completion of present contracts, three months hence, although raw materials might be purchased there.

Indians Are Increasing. Washington.—The American Indian, under improved health conditions, is increasing in numbers, according to the annual report of Commissioner Sells, of the Indian bureau. There were 209,224 Indians when the report was written, an increase of 1522 over a year ago.
