## FRENCH AT VERDUN ARE VICTORIOUS

Paris.—As his last act before assuming the chief command of the French armies on the western front, General Nivelle smashed the German line east of the Meuse along a front of six miles. The victory advanced the French positions two miles, and they are now within a short distance of where the Germans stood at the outset of the great Verdun drive. The military authorities describe the victory as complete and crushing, and carried out without a hitch.  
 Although the Germans offered a desperate defense, the attack was so powerful there was no withstanding it, with the result that the Germans were pushed back along the line by the French, who only ceased on orders when the objectives had been gained.  
 The number of German prisoners taken, according to the latest counting, is 11,387, including 284 officers.

## WALLACHIA IS WON

Berlin Regards Military Operations in Roumania as Terminated.  
 Berlin, by wireless to Sayville, N. Y.—The following comment on the military situation in Roumania and the Verdun sector of France is given out for publication by the Overseas News Agency:  
 "Operations in Wallachia can now be considered as terminated. Buzeu, which has now fallen into the hands of the central powers, is the last important rail point in Wallachia. The allies (Teutonic) now control two-thirds of the Roumanian railroad lines. The Buzeu and Jalomitzia rivers form the second and third strategic lines, in which were secured corn and oil stores.  
 "The most recent German successes finally have provoked a greater activity on the western front, but the great new attack on the Meuse, launched by the French after strong artillery preparation, cannot modify the general situation. Such offensive thrusts, carried out with all available means are always successful at the beginning."

## Greeks Give in to the Allies.

Athens.—The Greek government's reply, accepting demands of the entente allies, is complete compliance with their ultimatum and an expression of the hope for resumption of traditional relations with the entente nations, based on reciprocal confidence.

## Russia Wants War to Go On.

London.—A dispatch to Reuter's Telegram company from Petrograd says:  
 "The duma has unanimously passed a resolution against the acceptance of the German peace proposals, after a spirited speech by the minister of foreign affairs."

Evidence in Marina Case to Berlin.  
 Washington.—Information assembled at the state department and believed by some officials to present a clear-cut violation of German pledges in the sinking of the British steamer Marina, with the loss of six American lives, has been forwarded to Berlin for submission to the German foreign office.

## Prince Oysma Dies.

Tokio.—Field Marshal Prince Iwao Oysma, commander-in-chief of the Manchurian army of Japan during the Russo-Japanese war, is dead.
