### Grace Smith Injured in Fall.

Descending the steps Tuesday night at the Christian church, where revival meetings are being conducted, Miss Grace Smith, who lives east of town, slipped upon the walk and fell, striking her head upon the steps.

She was unconscious when assistance came, and was taken to the home of Mrs. Sarah Knox, near the church, where she remained over night. A physician was called to attend her. Fears of paralysis were at first entertained, but she recovered sufficiently to be removed to her home yesterday, and it is thought that her injuries will not prove serious.

There is satisfaction in having a letterhead that has the appearance of being "right up to snuff." There is satisfaction to The Sentinel in doing printing for those who want that kind.

Free Rose Slips Again Offered  
University of Oregon, Eugene, Jan. 31.—February 1 will see 6,000 hardy rose clippings ready to send out for planting on Oregon lawns.

This practice was begun in 1914, when H. M. Fisher, superintendent of grounds, instead of throwing away the tops clipped from the University's fine rose hedges, put them in the ground, where almost all took root. A circular letter was then sent to the high schools, announcing that the University would be glad to send from 12 to 20 cuttings to any school that cared to write for a shipment.

Since then this yearly custom has added to the beauty of many school lawns.

### FARMERS MAY OBTAIN FREE TEST SEED

Washington, Jan. 29.—The United States department of agriculture, in connection with its distribution of new and rare field seeds, has requested Congressman W. C. Hawley to recommend 400 farmers of the first congressional district of Oregon who will be sufficiently interested to experiment with one kind of the special seed during the coming season and report to the department the results obtained from their tests.

The seed assigned Mr. Hawley consists of 70 four-pound packages of Kansas-grown alfalfa; 300 four-pound packages of an improved variety of field pea, and 30 two-pound packages of white sweet clover. One kind of seed only will be sent to a farmer for experimental purposes and Mr. Hawley will send the seed in the order in which he receives requests for it. Any farmer desiring the seed should state his preference and should be especially desirous to be taken by prior request, it would be well for him to also state his second and third choice.

The seed will be mailed from the department's warehouse direct to the farmer, upon Mr. Hawley's requisition, and will be accompanied by a circular giving full instructions regarding the culture of the crop furnished. Since a considerable portion of the seed is intended for spring planting, the department wishes to distribute it before March 1, 1917. Mr. Hawley will gladly send the seed to interested farmers upon their requests so long as the seed may last, and, of course, without expense to them.

Every week The Sentinel has inquiries for sample copies from parties looking for land in this vicinity. If your farm is for sale, you should have it advertised in The Sentinel, where it will reach the eyes of those looking for land in this vicinity.

### ROAD SUPERVISORS ARE APPOINTED BY COURT

Plan of Holding Elections in Various Districts Is Not Entirely Satisfactory.

The appointment of county road supervisors for 1917 is announced by the county court. The court concluded some time ago to appoint those men in each district who, in the judgment of the members of the court, were the best qualified for the position and not to hold an election in the districts, as was done for 1916. The court found that this system created some dissatisfaction in a number of districts.

In making the appointments this year men who, it is believed, will do the best work on the roads and who have a thorough knowledge of road building and repairs were named.

Appointments for this end of the county are as follows:

No. 10—J. L. Beaver, Creswell.  
No. 11—Otto Morton, Creswell.  
No. 13—J. C. Wright, Walker.  
No. 14—Warren Kelley, Cottage Grove.  
No. 15—Edward Tullar, London.  
No. 17—R. C. Gleason, Disston.  
No. 21—Fred Robinett, Creswell.  
No. 24—Scott Jackson, Lorane.  
No. 56—W. W. Hawley, Lorane.  
No. 57—O. E. Crowe, Lorane.  
No. 64—Martin Foster, Lorane.  
No. 68—Emmett Sharp, Cottage Grove.  
No. 69—John Ashby, Cottage Grove.  
No. 76—Finley Whipps, Cottage Grove.

### SOUTHERN PACIFIC EMPLOYEES RECEIVE SEMI-ANNUAL BONUSES

Eighteen employees of the Southern Pacific company's tie plant at Latham have received bonuses aggregating \$656.83, in addition to their regular salaries.

The bonuses are paid to all unorganized employees of the Southern Pacific company and represent 10 percent of the regular wage of the employee benefited. In order to be eligible for this bonus a man must have been employed by the company for two years or more. Payments are made semi-annually—in January and July.

Two men on the station force also received bonuses. They were George Widdersheim and Albert Burrows. Several men on the section force were also included.
