—but pleasing your taste isn't all

Not by a long shot! Because lots of cigarettes may please your taste—you've never expected a cigarette to do *more* than that.

But Chesterfields do *something else* besides please the taste—

Chesterfields just "touch the spot," they do what cigar smokers say a cigarette *can't* do—they "SATISFY"!

And yet, they're *mild*!

It's the *blend*—that's the idea! That, together with the extra high-quality of the Imported and Domestic tobaccos. And the blend *can't* be copied.

If you want good taste in a cigarette, and then *more* than that: a cigarette that "satisfies"—try Chesterfields, today.
