

Negroes Teach Us Loyalty

For an example, those Americans of Caucasian race who edgel their brains for excuses to keep out of war when Germany makes war on the United States are commended to a citizen of negro blood. This is what Roscoe Conkling Simmons, of Louisville, Ky., a nephew of the late Booker T. Washington, said recently to an assemblage of his own race:

We have a record to defend, but no treason, thank God, to atone or explain. While in chains we fought to free white men—from Lexington to Carrizal—and returned again to our chains. No negro has ever insulted the flag. No negro ever struck down a president of these United States. No negro ever sold a military map or secret to a foreign government. No negro ever ran under fire or lost an opportunity to serve, to fight, to bleed and to die in the republic's cause. Accuse of what you will—justly and wrongly—no man can point to a single instance of our disloyalty.

We have but one country and one flag, the flag that set us free. Its language is our only tongue, and no hyphen bridges or qualifies our loyalty. Today the nation faces danger from a foreign foe, treason stalks and skulks up and down our land, in dark councils intrigue is being hatched. I am a republican, but a Wilson republican. Woodrow Wilson is my leader. What he commands me to do, I shall do. Where he commands me to go, I shall go. If he calls me to the colors, I shall not ask whether my colonel is black or white, I shall be there to pick out no color except the white of the enemy's eye. Grievances I have against people, against this government, injustice to me there is, bad laws there are upon the statute books, but in this hour of peril I forget—and you must forget—all thoughts of self or race or creed or politics or color. That, boys, is loyalty.

Those words come from a member of a race which the United States released from slavery only a little more than fifty years ago and which has since denied its lawful rights in many states, but that does not prevent exhortation to unflinching loyalty. Though the negro's skin is dark, his liver is not bleached nor does he give evidence of a yellow streak. Let the six senators who voted against the war resolution sit at the feet of their negro fellow-citizens and learn patriotism.—Oregonian.

FADS AND FANCIES

Add a little drop of salad oil to mustard when it is being made. Not only will it improve the taste, but it will keep it fresh for days.

Rub the kettles all over with a cut lemon dipped in salt, then rinse thoroughly with clear water and polish with a soft cloth.

An easy way to skin a beet without bleeding it and causing it to lose color is to put it in cold water as soon as it is cooked. Then draw the hand gently down the beet and the skin will drop off without trouble.

Hang a five-cent slate on the inside of the cupboard door, on which to jot down items likely to be forgotten.

When scrambling eggs for breakfast, add one tablespoonful of fine bread crumbs and one tablespoonful of milk to every beaten egg. Season with pepper and salt and cook in the usual way. By this means stale bread may be used up and one egg will go as far as two.

The disagreeable taste of castor oil may be concealed by giving the dose in hot milk flavored with salt and a sprinkle of black pepper. It is necessary to have the milk warm enough to mix with the oil or some of it will float on the surface. Castor oil can always be made more palatable by adding lemon juice.

Salt and vinegar will remove stains from discolored teacups.

To tighten cane-bottomed chairs wash the chair in a strong solution of soda and water and let it get thoroughly dry. When dry it will be found that the cane has shrunk and the seat tightened.

When my eldest boy outgrows his clothing, it is laid away for a while, and when the next boy can use it, the older boy brings it out and, with great ceremony, presents it to the younger brother. Upon these occasions we have a "party" (cookies and fruit), and we never remember we are wearing out outgrown clothing.

\$6,750,000,000 IS ASKED FIRST YEAR

Will Issue Bonds for Five Billion and Allies Will Borrow Three Billion.

Washington.—President Wilson's policy, outlined in his address to congress, of paying America's war bill, so far as possible, while the war is being waged, leaving a minimum debt to posterity, was reflected in a virtual decision by leaders in the house and senate to raise 50 per cent of the first year's expenditures by taxation. Under this program congress will be called on to raise war revenues of \$1,750,000,000 through new and increased taxation during the fiscal year ending June 30, 1918. This is exclusive of the \$5,000,000,000 bond issue, authorization for which will be sought.

The total demand upon the financial resources of the country during the first year of war, under this program, would be \$6,750,000,000. Of the bond issue, \$3,000,000,000, it was definitely stated, would be loaned to the entente allies.

The facilities offered by bankers and others who have asserted that they would place their services free of charge at the government's disposal to aid in making the bond issue a success will be sought of federal reserve banks, national banks, state banks, insurance companies, private and investment bankers and of every governmental agency, such as the internal revenue offices and the postoffices, in floating the issue.

The terms of the bonds are yet to be decided on, as well as the denominations, but it is likely that there will be little change in the plan to issue them in denominations as low as \$25. Once the authorization is granted, it is possible that the big issue will not be placed before the investing public in one lump sum, but will be issued from time to time as the money is needed.

Creation of a general munitions board was announced by the Council of National Defense. It will be headed by Frank A. Scott, a Cleveland manufacturer, and will be charged with supplying the army and navy with munitions and equipment. One of its chief functions will be to decide between the country's military and its industrial needs.

The board's establishment puts into the hands of a group of army and navy officers and industrial leaders virtually the same task given the British minister of munitions.

DIPLOMATIC RELATIONS SEVERED BY AUSTRIA

Washington.—Austria-Hungary, ranging herself unreservedly with Germany, has severed diplomatic relations with the United States, precipitating a situation which generally is expected here to lead to war.

Baron Erich Zwiadinek, the Austrian charge, asked the state department for passports for himself, his staff and the Austrian consular force in this country, and simultaneously American Minister Stovall reported from Berne that Austria had announced the break in relations to the American embassy in Vienna.

Immediately the treasury department ordered the seizure of all Austrian merchant ships in American harbors.

TO ARREST FLAG INSULTERS

Washington.—A warning against desecration of the American flag by aliens has been issued by the department of justice. The following notice was sent to federal attorneys and marshals: "Any alien enemy tearing down, mutilating, abusing or desecrating the United States flag in any way will be regarded as a danger to the public peace within the meaning of regulation 12 of the proclamation of the president, issued April 6, 1917, and will be subject to summary arrest and confinement."

Ammunition Factory Blows Up.

Chester, Pa.—An explosion in the plant of the Eddystone ammunition corporation, at Eddystone, Pa., near here, is reported to have killed 50 to 150 persons. Several hundred are said to have been injured.

It is stated the building in which the explosion occurred was used for making time fuses for shrapnel. The workers were mostly women and young girls.

Martial Law in Guatemala.

Guatemala City.—Martial law has been declared in Guatemala. The action was taken on information of disturbances along the Mexican and Salvadorean frontiers, supposed to have been created with German assistance.

Hogs Four Cents 23 Years Ago.

The Sentinel has noticed in one of the "Twenty-three years ago" items in the North Branch (Minn.) Review the following news note: "McKeen & Co. will pay 4c for hogs, live weight, and 5c per pound for dressed hogs."

It is interesting to compare the prices paid for pork 23 years ago with those of today, which are over three times as high. A car of hogs shipped from Lane county last week sold for \$13.50 on the Portland market, live weight.
