Personally Conducted Trip Through the Tents for Teachers and Children.

School boards all over the country now recognize the big educational attraction the Barnes big wild animal circus, which comes to Cottage Grove Saturday, May 5, has to offer in their specially arranged "personally conducted trip" through the animal tents at 1 p. m.

Teachers, pupils and their escorts who are desirous of taking advantage of this rare opportunity to study animal nature at first hand are requested to be at the

Tigers, lion leopards and pumas riding horses and jumping through hoops of fire clearly demonstrate the master mind of man over the animal world. "Samson," a big African lion, soaring to the top of the tent surrounded by spurring fire-works is another instance of man overcoming animal nature—elephants carrying tiny shetland ponies swung in cradles from their mouths. Monkeys riding shetland ponies and doing rare tumbling acts. Horse-riding

entrance of the main tent at 1 p. m., where they will segregate in a body and permitted to enter first.

Once inside, the party will be taken in charge by a lecturer and attendants who will escort them about, explaining traits, characteristics and incidents of the different animals. A woman will be among the attendants to look after the comforts of girls and women, men doing the same for the boys.

From the animal tent the party is escorted into the main tent where a special block of seats have been set aside for them. Here attendants are stationed to answer any questions the party may wish to ask and to see that none stray away or get hurt.

Liveried caterers will be near to supply the circus appetites with the purest of red lemonade, peanuts and popcorn of the best quality may be obtained from them.

In the performance of 65 acts opened by the greatest animal aggregation ever known, "The Conquest of Nyanza," teachers, pupils and patrons will receive the greatest study in animal psychology possible, the truth of which will be driven home so clearly while the minds are receptive that few will ever forget it.

A bear, leopard, dog and monkey riding galloping horses in the same arena at one time is a rare accomplishment.

SPRING FLOWERS

By Mrs. Tilla P. Taylor
Calyp' so Bo re a' lis.

She was a nymph of the tropical seas,
Her lover was Boreas bold;
In the blistering heat of a vertical sun
He sighed for the regions of cold.

In a fleet of pearl with rose-purple sails,
That danced on the waves as foam,
They left the palace on Ogygia's isle
To find a more suitable home.

No artist recorded the marvelous scenes
Of this most wonderful cruise—
But among all the beautiful places of
earth
They found it some trouble to choose.

Vigorous and bold, he glories in cold
And pictured his palace of ice—
But to one from the tropics who never
wore fur
It sounded more chilly than nice.

It is only a guess—that they ended
their quest
In the picture-hung hills of the west;
But any May-day, if passing this way—
In latitude forty and three—

In sheltered ravines, among the dead
leaves,
Making rosy the moss-covered green,
With sails all unfurled, anchored lightly
to earth,
Quaint pearly-pink boats may be seen.

Calypso, meaning hidden or concealed
is the personification of darkness, Boreas,
of the north or north wind.

This beautiful little orchid, although
it grows sparingly in many countries,
is considered by botanists a rare plant.
Many people know it by the name
Lady-slipper.

"Your Nose Knows"

Trust that same sense of fragrance in the selection of a tobacco. Get its flavor! Whiff it close to your nose. Its pure fragrance will appeal. It will always satisfy—"Your Nose Knows."

Such a tobacco is

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

And the reason is that TUXEDO is made of the most fragrant leaves of the tobacco plant, the tender Burley leaves—ripened in Blue Grass sunshine, mellowed and carefully blended. There's no fragrance like it—no fragrance so pure and appealing. Put it up to your nose—"Your Nose Knows."

Try this Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep—its delicious, pure fragrance will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment—

TECHNICAL DEPARTMENT BULLETIN

TO ALL DEALERS:

For your information we wish to advise that in our experiments and tests here at the factory with our new Eight Cylinder car, we have been able to secure uniformly better results with Standard Oil Company's Zerolene motor lubricant than with any other which we have used.

Please understand, however, that we do not wish this to be construed as an attempt on our part to dictate the brand of oil which you should use, but merely to call your attention to the fact that this particular brand has given us better results than any others which we have tried, and are giving you this for your information.

Yours very truly,

THE PERLESS MOTOR CAR COMPANY

BECAUSE Zerolene is correctly refined from asphalt-base crude, it maintains its lubricating body and value at cylinder heat, thus forming a perfect piston seal, reducing friction, and enabling the motor to develop its maximum power.

Zerolene is the oil for your car.

For sale by dealers everywhere and at our Service Stations.

UNITED STATES CREAM SEPARATOR

A Money-Making Machine

THE U. S. MINT is the purest money-maker in the U. S.—and next to it comes the U. S. CREAM SEPARATOR.

EVERY time you put a milking through the U. S. SEPARATOR you are grinding out additional revenue above the cream value.

"SKIMMING the Cream" has a double meaning when you use the U. S. Separator, for you are creating extra profits by the saving of time, strength, and repair charges.

THE sooner you put one of these U. S. money-makers to work in your dairy, the quicker your "gold pile" will accumulate. Not a drop of cream gets past the U. S. SEPARATOR, and every day in the year it is ready to make your work easier and your profits greater.

DON'T waste another hour of your life fussing with an old-style type of machine. Be modern. Buy a U. S.—the World's Record close skimming separator.
