

EARNING POWER—

Do you realize how much depends upon good eyesight—that your pleasure in life, as well as your earning capacity is governed by the quality of your sight?

Defective sight, even in a small degree, causes imperfect understanding and therefore less enjoyment than has the possessor of perfect sight.

Imperfect understanding must also affect the earning powers.

Neglect small defects and they grow more serious.

We test the eyes in the most scientific manner and know just what glasses should be worn.

Our experience and methods insure your safety.

FADS AND FANCIES

A large loafah cut in two or three pieces makes excellent dishwashers. A longer one can be kept for cleaning jugs. Loofah is very easy to keep sweet and clean, and, being rough in texture, it does the work easily and well.

Add a little vinegar to the enamel when cleaning gas stoves. The polish will be better.

Sex tapes to each corner of the baby's quilt, so he can't kick it off.

When washing colored gingham, muslins, etc., soak in cold salt water, then wash in strong suds made by dissolving white soap in warm water. Wash quickly, rinse in cold water and dry in the shade. In this way the color will not fade.

Adding a tablespoonful of solution of tartaric acid to a boiler of water before putting clothes into the boiler will soften the water, loosen the dirt, and whiten and bleach the clothes.

Remove iron rust from white clothes by plunging into a solution of oxalic acid made from a tablespoonful of acid crystals dissolved in a pint of water. Remove articles as soon as rust disappears and plunge into cold water, then wash in the usual manner.

Squeeze lace in hot water, then in cold. To stiffen, dip it in milk. It should then be pressed on a well-padded board on the wrong side, with a fairly hot iron.

Mrs. K. Veatch, of Creswell, is visiting Mrs. Harriet Wallace, who has been quite ill for some time.

Mrs. Fannie Wicks, of Elkhead, visited during the past week with her mother, Mrs. E. E. McKinney.

expressly for the glee club, and being an exaggerated presentation of a few of the faults and foibles of maidens. Probably the part worthy of greatest compliment was the work of the accompanist, Miss Marian Neil. The chorus work was uniformly excellent, and the continuing harmonious. Dr. Lyman's two solos were effective bits and their merit was appreciated. There was a fair sized audience.

Miss Lenh Perkins, of this city, a member of the club, was unable to be present.
