Exercises will also be held Friday night at the church for the graduation of Leila Davis.

Anna Chapman, a junior, and Grace Henderson, a freshman, were exempt from examinations.

Both schools will be closed Friday after successful nine-month terms.

SENATORS CUT OUT GROSS SALES TAX

Surtax Is Also Rejected, But Other Levies Will Be Substituted.

Washington.—Proposals for a 5 per cent tax on manufacturers' gross sales in many industries and for greatly increased surtaxes on big incomes were stricken out of the war revenue bill by the senate finance committee, cutting down by many millions the total revenue provided for as the measure passed the house.

The senate finance committee decided to strike out the whole section levying \$200,000,000 by a general tariff increase of 10 per cent on an ad valorem basis.

As a substitute the committee proposes direct excise, or consumption taxes on sugar, tea, coffee and cocoa. The administration's food survey bill, first of the food-control measures,

was passed by the house without a record vote. It appropriates \$14,770,000 for an immediate investigation of the country's food resources and for measures to stimulate production.

The war revenue bill, framed to bring into the treasury \$1,800,000,000 through new taxation during the coming year, passed the house by a vote of 329 to 76 in almost the same form that it was presented by the ways and means committee.

Outstanding features of the house bill are the greatly increased income, inheritance, excess profits, liquor, cigar and tobacco taxes, virtual abolition of the present customs free list and a 10 per cent addition to existing tariffs, new taxes on manufacturers, amusements, clubs, public utilities and insurance, a far-reaching stamp tax and a greatly increased second-class mail matter rate based on the parcel post zone system.

HOOVER PRESENTS FOOD SITUATION.

Washington.—Members of the cabinet and others actively engaged in the conduct of the war outlined war aims and needs to a meeting of some 300 editors of the country's technical and trade publications. All emphasized the magnitude of the task before the nation.

The food situation was presented by Herbert C. Hoover, who will be named food administrator. The country, he said, faces a war that probably will last from two to five years.

The allies' grain needs this year, Mr. Hoover said, will amount to about 1,000,000,000 bushels. America and Canada, with good crops, can furnish 60 per cent of this without deprivation, but the allies must have, he declared, at least 80 per cent of their needs to keep their efficiency at the highest average.

Food prices in the United States are too high, and, if they continue at the present level, he declared, wage readjustments must come or the workingman cannot live. The first thing for the administration to accomplish, Mr. Hoover added, is price stability, not only for this country, but for the allies.

The wise buyer patronizes the merchant who shows he is alive by his ads. in the local newspaper.
