As they think of the loved ones they could embrace again but for the neglect of those who cheer but do not give, what must be their feelings toward those who thought more of a few paltry dollars than of the lives of the boys who went to the front to ried a year. be targets for shot and shell"

Again the wounded one raised upon his arm and with eyes dimmed by approaching death, he asked, "Did you do your bit?"

Quickly came the bated breath of the dreaming one as he realized that he

was one of those responsible for the death of the dying young man before him. Could he ever look the mother of that boy in the face again, knowing that the few dollars he had neglected to give might have saved her boy's life! "But there were others more able to

give than I," he faltered. The white-robed one turned slowly upon him and raising a white-robed arm pointed straight into the face of the dreaming one. "Would the giving of \$25 have been to you a sacrifice equal to the sacrifice this young man has made? Was \$25 worth more to you than the life of this young man, who is a son of one of your neighbors or the father of the playmates of your children?"

Red Cross ambulances were now appearing. Red Cross nurses were passing among the bodies.

A nurse reached the dying boy just in time to receive his dying message. 'Just an hour too late,'' said the nurse regretfully, looking upon the face of the stalwart youth whose life might just as well have been saved had the relief work been properly supported.

Just then the children of the house burst in from their evening of enjoy ment, and the dreamer awoke with a start. "John, I have just subscribed \$10 to the Red Cross," the wife said.

"Thank God!" was the reply. "And I'll make it \$10 more if I have to give ap all my pleasures for a year."

Optometry Means Eye Service

You are safe when you entrust your eyesight to the skill of an optometrist, registered under the optometry act of any state. You are risking a valuable possession when you take chances in buying cheap, ready-made glasses over the counter or from traveling "professors" and others not qualified by law or experience.

Eyes that need glasses are entitled to specialized effort.

For the sake of your eyes, consult a qualified and experienced Eye-sight Specialist-an Optometrist. We guarantee all of our work.
