THE WORLD'S RECORD CLOSE SKIMMING
UNITED STATES CREAM SEPARATOR

A Clean Proposition
If every dairyman's wife could vote when cream separators are up for election, a U. S. CREAM SEPARATOR would always win, hand down.

If the creamery managers knew the unsanitary condition of many separators which serve them, they would be even more urgent for the use of U. S. SEPARATORS.

If the buyers of creamery products knew that the poor keeping qualities of butter can usually be traced to imperfectly cleaned separators, they would call even still louder for the U. S. SEPARATOR, with its unequalled reputation for cleanliness.

If you will let me show you how much easier it is to keep the U. S. SEPARATOR clean and rustless inside and out than other similar devices, how quickly the mechanical weather scrubbers, scalds and dries the skimming parts, then you will be as pleased to own a U. S. SEPARATOR as I am to introduce them.

After I show you, see if you can find any other separator so sanitary. If you cannot—then buy a U. S. the World's Record close skimming separator.

KNOWLES & GRABER AGENTS

ADVANCE IN GALICIA BEGUN BY RUSSIANS

16,000 Teutonic Prisoners Are Taken in Big New Offensive.

Petrograd.—Russia has resumed the offensive. More than 16,000 prisoners, many guns and other articles of war material and several strongly fortified Austro-German positions in Galicia were taken in the mighty smash delivered July 1, the precise time set for an offensive by War Minister Kerensky several weeks ago in a communication to the United States government.

The brilliant Russian advance, the news of which has sent a wave of rejoicing through the entire country, was led by War Minister Kerensky in person.

According to news received by the government the offensive is developing in an absolutely favorable manner. For several days the war minister had been continuously at the front, spending every effort to urge the troops to advance. He finally rode to the front line trenches, and, placing himself at the head of the troops, gave the order to advance.

The spectacle of the popular war minister on the firing line accomplished what oratory had failed to do, and the Russian line swept forward into the German trenches.

In the assault the Russians occupied the strongly fortified position southwest of Bfezeany, and also Komuchy, on the river of the same name.

AMERICAN TROOPS LANDED IN FRANCE

Washington.—The advance guard of the mighty army the United States is preparing to send against Germany is now on French soil.

A total of four contingents of American troops has reached the American naval base in France. Only meager dispatches from General Pershing and from General Sibert, who commands the force, have reached Secretary Baker. A great fleet of transports was used to convey the American regulars across the Atlantic. They were protected all the way by some of the mightiest fighting ships of the American navy.

No formal announcement of the landing came from the war department. None will come probably until Major-General Pershing's official report has been received. Then there may be a statement as to the numbers and composition of the advance guard.

Weather conditions during the entire voyage were ideal, and the men arrived in excellent health. The days were warm and the nights cool and comfortable, while the sea was unusually smooth. Very few cases of seasickness or other illness was reported.

The voyage was made on schedule time without any serious mishaps to men or machinery. The port of arrival was known by less than a score of officers until the ships were almost within sight of land.

FRENCH DEFEAT GERMANS

Paris.—Picked troops, driven forward in perhaps the most savage attack in six months, succeeded in penetrating the French first line trenches near Verdun over a front of nearly a mile and a half, but were immediately driven out.

Fearful losses were inflicted on the attackers, and the net gain was a small bit of ground held on the west slope of Deadman's hill, according to the official report.

"On Friday evening, west of Deadman's hill, the Germans powerfully assumed the offensive on a front of about a mile and a half," the statement said. "The assault was by picked troops in a furious attack, but energetic counter-attacks drove them out everywhere with the exception of the western slope of Deadman's hill."

Germans Plot to Wreck Lake Ships.

NEGROES SHOT AND BURNED BY MOBS

Many Killed and Big Property Damage in East St. Louis Race Riots.

East St. Louis, Ill.—Fires burning in five sections of East St. Louis and at least 20 dead negro bodies and crowded hospitals testified to the terror that reigned here Monday night while mob after mob swept the streets seeking negroes whom they might slay.

Five negro sections of the city were fired by mobs, and terrorized negroes fled from their burning homes only to meet bullets from the guns of the rioters.

The orgy of butchery and incendiarism, which seemed to have exhausted itself shortly after midnight, broke out anew Tuesday forenoon.

Further shooting was reported by the police, while several fires burst out again in the blocks of blackened ruins left by the mobs.

Tuesday morning, 24 bodies, including those of three white men, had been recovered. The death list is placed at all the way from 30 to 250, and it is estimated that the injured number 300. More than 500 white men were arrested and disarmed during the night.

Eleven companies of the Illinois national guard, numbering about 1500 men, patrolled the streets at daylight with fixed bayonets, with orders to prevent any assembly of people on the streets.

The property loss due to the rioting was heavy and will amount to as high as \$500,000.

RAILROADS LOSE IN RATE DECISION

Washington.—The interstate commerce commission has denied the plea of the railroads of the United States for a horizontal increase of 15 per cent in freight rates.

In its decision the commission indicated its willingness to increase class rates in the eastern district approximately 14 per cent. Since about one-fourth of the freight handled is moved under class rates, the decision virtually allows the eastern lines about 4 per cent increase in gross freight revenue. Increases sought in rates on coal, coke and iron ore will be granted.

RUSSIANS OPPOSE SEPARATE PEACE

Washington.—Ambassador Bakhmeteff, head of the Russian mission, emphatically declared in an address before congress, assembled in the hall of the house, that the Russian people themselves oppose a separate peace with Germany.

The ambassador's declaration came at the end of the most remarkable and demonstrative reception yet given any of the foreign missions in either house of congress. Shouts and cheers came from floor and galleries. Members of congress who on previous visits of missions have applauded or remained quietly in their seats, cheered loudly.

The ambassador added: "Rumors of a separate peace are without foundation in fact. Russia's endeavor is for a lasting peace between democratic nations. Triumph of the German autocracy would render such peace impossible. Russia will not fall to be a worthy partner in the League of Honor."

Washington.—Drafting of 625,000 men for the national army will be conducted entirely in Washington, according to the conscription regulations approved by the president.

CHINA HAS NEW MONARCH

Military Chief Places Boy Emperor on Throne.

Pekin.—Early Sunday Hsun Tung the boy emperor, was taken into the imperial palace under the protection of General Chang Hsun and placed on the throne. The legation quarter of the city is under a heavy guard and the troops of General Chang Hsun are intermingling freely with the Peki soldiers.

General Chang Hsun is maintaining the strictest order and no trouble in Pekin is feared.

It is expected that President Li Yuan Hung will resign.

According to an edict issued in the name of the young emperor, President Li Yuan Hung has submitted to the monarchy.

15 Die When Tank Drops on Steamer.

Milwaukee, Wis.—Nine men and six women were killed and approximately 13 injured, when the whaleback steamer Christopher Columbus, in swinging away from her pier for the return trip to Chicago, crashed into a dock on the Milwaukee river, causing a huge water tank to fall from the top of a five-story warehouse onto the deck of the vessel.

Labor Will Not Attend Session.

Washington.—The American Federation of Labor has declined to participate in the international conference of trades unions called by the recent Stockholm conference to meet September 17 in Switzerland.

FOOD CONTROL BILL PASSED BY HOUSE

Measure as Passed Contains Far-Reaching Prohibition Provisions.

Washington.—The administration food control bill, giving the president broad authority to control the distribution of food, feed and fuel for war purposes and appropriating \$152,500,000 for its enforcement and administration, was passed by the house after far-reaching prohibition provisions had been written into it.

The vote was 355 to five. Representatives McLemore, Slayden and Young, of Texas, democrats, and Meeker, Missouri, and Ward, New York, republicans, voting in the negative.

RUSSIANS OPPOSE SEPARATE PEACE

The prohibition amendment, according to statements of house members, will reduce the government revenues by more than \$200,000,000 a year.

The prohibition amendment in the bill will make the United States "dry" during the war, if the measure goes through the senate as passed by the house. It forbids the manufacture of any food materials into liquor, thus knocking out beer and light wines as well as stronger spirits. The Webb amendment gives the president power to make the nation practically "bone dry" by seizing all intoxicants in the nation and redistilling them to get alcohol for industrial use.

RUSSIANS OPPOSE SEPARATE PEACE

The bill now goes to the senate, where it probably will be substituted this week for a similar measure already under consideration. Leaders hope to get the measure to conference by July 1.

While the senate is occupied by the control bill, the house will proceed with the rivers and harbors bill, to be followed by the administration measure authorizing the president to direct priority in railroad shipments, which has passed the senate.
