

Gravity is Not the Test for Gasoline

"The specific gravity test is worthless, as a test of gasoline quality."

So says the U. S. Bureau of Standards. Boiling points comprise the only real test, because easy starting, quick acceleration, maximum power, depend absolutely on boiling points. The gravity-hydrometer tells you nothing about the boiling points of gasoline.

RED CROWN the Gasoline of Quality

It is straight-distilled, and thus has its boiling points in a gradually rising, unbroken chain—low boiling points for easy starting, medium boiling points for quick and smooth acceleration, high boiling points for power and mileage.

No mixture can contain an unbroken chain of boiling points—the hundreds of intermediate points are missing. Be sure and get Red Crown. It's pure gasoline—not a mixture.

MESS FUND STILL LACKS \$200 OF REACHING AMOUNT SET

Contributions Demonstrate Our Interest in Personal Welfare of Boys Who Will Fight Battles for Us.

When Sixth company left here the mess fund was but little over \$400. Many in the city desire to increase the fund to an amount that will compare favorably with the mess funds of other companies, \$600 being about the amount set, and there probably will be another soliciting campaign to raise the remainder.

While the mess fund is not an absolute necessity, yet it is greatly appreciated by the boys unaccustomed to regular army fare. The mess fund permits them to have many of the delicacies to which they have become accustomed at home and gives them an opportunity to gradually become accustomed to the hardy army fare. The commissioned officers of the company get none of the benefits of the mess fund unless they eat at the company mess. Contributions to the mess fund show our personal interest in the boys who have given up every comfort to fight for us.

Any who have not done so and who may wish to do so, may still make contributions to the fund. They may be left with C. E. Umphrey, president of the Red Cross; with Karl Mills, treasurer, or may be left at The Sentinel office.

Individual contributions to the fund to date are as follows: Umphrey, C. E., \$5; Anderson, Mrs. W. C., 75c; Arne, R., \$5; Anderson, Mrs. 20c; Arne, Mrs. Nettie, \$1; Arnold, J. TALK OF CHANGING PACIFIC HIGHWAY BY WAY OF LONDON

Road Long Worked for by London and Sutherland People May Yet Get Recognition.

A plan has been proposed by the state highway commission to make a change in the route of the Pacific highway south of Cottage Grove, which meets favor with a large number of people who have investigated the route as proposed by the commission.

South of Cottage Grove it has been suggested that the road continue up the coast fork of the Willamette and across the Calapoia mountains near Black Butte. This route would eliminate Drain, Yoncalla and Oakland. It is claimed that a much better grade could be obtained and that a saving of over \$150,000 in construction cost could be effected. It would cut out Pass creek canyon and Rice hill.

This route, however, is one for future consideration, though it may ultimately be adopted. For the present it is the intention to keep to the present route through Pass creek canyon, Drain, Yoncalla and Oakland. Residents of London and Sutherland have been trying for years to get consideration for this proposed road, and it seems that there is a possibility of their efforts meeting with success.

WORMY APPLES ARE PLENTIFUL

First Moths Have Done Their Work; New Crop Can Be Controlled.

Oregon-Agricultural College Station, Corvallis, July 30.—A heavy crop of wormy apples in the average valley orchard has been found in a recent survey. The early brood has already done its work, but it is the new crop of worms that will sting the fruit the hardest during August and September unless it is controlled. It is this generation of worms that increases the loss to growers and now is the time to spray for them.

From Corvallis south, spray August 1 to 6. From Corvallis north, spray August 4 to 8. Use the arsenical solution applied as a fine misty spray, making every effort to cover the entire surface of the fruit. Evidences now indicate, says Prof. A. L. Lovett, O. A. C. entomologist, that a second application about August 25 to September 5 will be highly advisable.

More "Quick" Brought In. E. B. Crane, superintendent of the Black Butte mines, was in the city Friday making another shipment of quicksilver. There were 33 flasks in the shipment.

Liberty Bond Payment Due. The second payment on the liberty bonds was due Saturday, July 28. Some of the purchasers paid in full at the time they bought the bonds, but many are taking advantage of the installment plan.

SECOND MEMBER OF FAMILY MEETS ACCIDENT

Henry Damedwood Recovers After Being Seriously Injured by a Hay Fork

Henry Damedwood, brother of Lee Damedwood, who was recently killed in an accident, himself met with a near-serious accident a few days ago. He was assisting in unloading hay in his barn when struck by the hayfork. It was several hours before he regained consciousness. He was struck on the forehead and the wound was but a small one. Mr. Damedwood saw the fork approaching and intended to swing it out of the way, but was not quick enough.

It was but a couple of weeks ago that his brother Lee was killed in a runaway accident.

TALES OF THE TOWN

Mr. and Mrs. Herschel Allison returned last week from a motor trip to California.

Alf Jury was in Portland last week on business.

The Sentinel should be in every home of the Cottage Grove country. Glen Hogate left Friday to join his father in Montana.

Mrs. E. M. Monson left Friday to join Mr. Monson at Kelso, Wash. Mrs. G. M. Bailey returned to Creswell Friday, after a visit with Mrs. Ella Wilson.

Wait ads. are for those who want something. They are a panacea for all the wants of mankind. Geo. H. Brainard and son and daughter returned Friday from Lebanon, where Mr. Brainard went on a business trip.

Mrs. Elmer Cooper, of Salem, visited this week with the Cooper family at the Central hotel.

Miss Helen Darling, of Portland, is a guest of her aunt, Mrs. D. H. Hemcway.

The wise buyer patronizes the merchant who shows he is alive by his ads. in the local newspaper. Mr. and Mrs. A. J. Deere arrived Sunday from Canby for a visit at the home of Mrs. Deere's aunt, Mrs. B. A. Whitton. Mr. Deere returned the same day, but Mrs. Deere will remain for several weeks.

Frank Woodruff is suffering with a badly damaged finger, the result of trying to connect it up with a piece of gas pipe.

You know what you want, but maybe others don't. Tell them that a Sentinel want ad.

Mr. and Mrs. Charles Adams returned yesterday afternoon from a trip to California.

WASTE IN STOCK FEEDING MUST BE ELIMINATED TO SAVE CATTLE

Fall Planting of Kale and Turnips Will Also Help to Make Up the Shortage Due to Weather.

By J. W. Pixley.

Feed is scarce in the Willamette valley this year. Pastures are drying up and men every day ask me if I know where they can sell cattle. Something must be done or we will face a meat and milk scarcity in the years to come. And that something must be done this fall or it will be too late.

William Steuding is, in my opinion, one of the best dairymen in Oregon. I say this not in flattery but as a fact after visiting many hundreds of dairy farms in the valley in Lane, Linn and Benton counties.

I made a special trip yesterday to see Mr. Steuding and ask him how we can save our cattle to the country. He said: "We can save every hoof if people will work hard, chop all the hay they feed, chop the straw and put either crude molasses over the chopped straw or molasses beet pulp. It will take work to chop the hay and straw but at the very least one-third if not one-half of all the hay will be saved."

Now is the time for everyone to do his bit and if by chopping the hay and straw one-third to one-half can be saved it is a patriotic duty to do so, as well as a money-saver.

Mr. Steuding feeds no hay loose. All his hay is cut in the ensilage cutter, the cut hay is dampened with water and well forked over, and any grain fed is first crushed and placed on this dampened hay and also well forked in. Every spear is eaten. All his stock looks fine all the time.

Mr. Steuding says there are old straw stacks around the country that have lots of good straw in them. They should be torn down now before it rains and all the good straw saved.

He says to put out kale seed now in a small plot that can be irrigated and when the fall rains come transplant it and if it is a normal fall good kale can be raised. Also sow turnips this fall and vetch so the vetch can be cut for early feed next spring.

If Mr. Steuding's advice is followed it will mean the saving of many thousands of dollars to the farmers of Lane county.

I have also visited John Spray at Cottage Grove. He has had a great deal of experience with cattle and in the growing of feed. He advises fall planting of turnips and rutabagas and says that much stock food to assist in tiding over the winter can be secured in this way.
