GERMANS TAKE LARGE PART OF OESSEL ISLAND

Premier Kerensky Issues Appeal to Baltic Fleet to Defend Country.

Petrograd. — The German forces which were landed on Oesel island, at the head of the Gulf of Riga, are pushing forward to the east and south, placing in a difficult position the Russian forces and batteries in the district of Arensburg, at the southern end of the island, and especially those on the Cerel peninsula. Military critics predict actions in the Gulf of Riga, followed by development of the invasion of the mainland, on the coast of Estonia, rather than an attempt toward the Gulf of Finland, which is protected by mine fields which the Germans would have to sweep under the menace of the Russian fleet.

Premier Kerensky, in an urgent appeal to the Baltic fleet to defend the fatherland "in this hour of trial," divulged the fact that the garrison of Kronstadt, the chief fortress and military port of Russia and the station of the Baltic fleet, 20 miles west of Petrograd, by its attitude already has weakened the defensive resources of the fortress.

Eight dreadnoughts, a dozen light cruisers, 40 torpedo boats and 20 mine sweepers participated in the German landing on Oesel island. The people of Petrograd received the news of the occupation calmly.

The newspapers publish interviews with some of the cabinet ministers and others who agree that while the operation seriously affects Russia's strategic position, it does not constitute an immediate menace to the Russian capital.

Proclamations have been sent to the army and fleet calling attention to the growing danger of an attack, even upon the capital, and exhorting the men to forget their political differences and turn their energies to the defense of the coast.

AUSTRIAN MINISTER ASKS GERMAN TERMS

London.—The Deutsche Tages Zeitung of Berlin, as quoted in an Exchange Telegraph dispatch from Amsterdam, says that Count Czernin, Austro-Hungarian foreign minister, recently requested the German chancellor, Dr. Michaelis, to state Germany's peace terms, urging that Germany make concessions in the west. Count Czernin received a vague reply, whereupon he stated that he could no longer negotiate with Dr. Michaelis, inasmuch as the chancellor made vague statements when clearness and frankness were imperatively necessary.

These statements of the Tages Zeitung are not denied, the dispatch says, and have made a great sensation, being particularly illustrative of the fervent desire for peace on the part of Austria.

GOVERNMENT TAKES SHIPS

American Craft of More Than 2500 Tons Capacity are Requisitioned.

Washington.—Practically all ships in overseas trade, flying the American flag, will eventually come under government control.

This was stated in government circles here, following formal notice that ships of 2500 tons or over will be requisitioned. If the war continues, vessels of 1000 tons will be taken over. The data for this move is already in possession of the shipping board.

Four hundred and fifty-eight ships, aggregating 2,871,359 tons, are placed exclusively at the government's disposal by the order effective next week. They will be operated by their present owners, but with charter and freight rates already fixed by the government. Efficiency for war purposes, not the owner's profit, will be the sole purpose in guiding the ships' future use.

President Urges Gold Mobilization. Washington.—Mobilization of the gold of the nation under the supervision of the federal reserve board, through taking of membership in the system by all eligible non-member state banks and trust companies, was called for in an appeal made by President Wilson.

New Oregon Adjutant-General. Salem, Or.—Governor Withycombe announced that he would appoint Colonel John M. Williams, of Eugene, as acting adjutant-general for Oregon to take the place of Adjutant-General George A. White, who expects to leave at once to enter active service.

Politics Permitted in Military Camps. Washington.—The war department has issued orders to allow representatives of political parties to campaign in the various military camps, so long as they do not interfere with the discipline of the soldiers.
