TAGLIAMENTO RIVER CROSSED BY TEUTONS

Increased Pressure Against Northern Wing of Italian Army.

Berlin, via London.—Austro-German troops have crossed the middle Tagliamento river in northeastern Italy and taken 6000 prisoners, the war office reports. They are advancing toward the west.
The Italians have evacuated the entire line along the river to the Adriatic coast.
Conflagrations, the German statement adds, indicate that the route being taken by the retiring Italians is between the mountains and the sea through the upper Italian plain.
The official statement says that from the Fella valley to the Colbricon, north of the Sugana valley, the Italians are retreating. (This region includes the front along the Dolomites and the Carnic Alps.)

Italian Headquarters in Northern Italy.—Crossing of the Tagliamento at Pinzano by a considerable force of the enemy should not be a surprise as this has been foreseen from the heavy pressure the Austro-Germans were concentrating on the Italian left wing. The river Tagliamento is only one of a series of defenses. Its main purpose was to retard the enemy advance and to gain time for the Italians in which to rehabilitate and concentrate.
The Tagliamento has served that useful purpose and the enemy now is faced by another main line of defense and other water courses. What line the Italians have chosen for their final stand cannot be indicated.

GERMANS RETREAT FROM AISNE FRONT

Paris.—France won a great and bloodless victory in a sweeping advance following a German retreat from all of the Chemin des Dames line between the Oise and Aisne canal on the west.
The captures of the French soldiers since September 23, it was officially announced, have totaled 200 heavy guns, 220 trench mortars and 720 machine guns. In 10 days, from October 21 to 30, 23 German airplanes were brought down and 28 forced to descend badly damaged.
The German retreat and the resultant French advance brings the envelopment of Laon, key city in the Hindenburg-Siegfried line, very close. The city is now less than seven miles distant from the new French lines—within range of heavy guns.
The ridges of the Chemin des Dames have cost the German crown prince almost as many men as did his assaults against Verdun and as with the French citadel, have gained him nothing. His present retreat was a foregone conclusion when the French bored in the corner at the extreme westward end of the Chemin des Dames, threatening his flank.

GERMAN WARSHIPS SUNK

Auxiliary Cruiser, Commerce Raider, and Ten Patrol Boats Destroyed.
London.—The German auxiliary cruiser, Marie of Flensburg, a commerce raider, the Crocodile, and 10 armed patrol craft were sunk by British destroyers operating in the Cattegat, an arm of the North Sea, between Sweden and Denmark.
The Marie, a 3000-ton vessel, equipped with six-inch guns, met the British destroyers 12 miles north of Kulten. She immediately opened fire, which was answered by the destroyers. In 10 minutes the Marie was ablaze.
Of the 81 members of her crew, the dispatch says, 30 were killed and the others took to the boats.
It is understood the Marie was accompanying a number of patrol boats, including the Crocodile, which sank after an explosion. No British losses have been reported.

Wisconsin Teachers Deplore Course.

Milwaukee.—Resolutions deploring Senator La Follette's course in the war crisis and emphatically declaring confidence in President Wilson were adopted by the Wisconsin Teachers' association convention at the closing session of the annual meeting.
Italy Asks U. S. Help.
Washington.—America can best aid Italy in her present crisis by declaring war on Italy's arch enemy, Austria-Hungary, an official cablegram received here from the general headquarters of the Italian army said.
Discredit Home Canned Food Buyers.
Washington.—The food administration denies plans to commandeer canned goods. Men attempting to buy home-canned products, declaring themselves to be food administration agents, are impostors, it was announced.

Count von Hertling, Prime Minister of Bavaria, who has been appointed German Chancellor.

BOARD ANNOUNCES SHIP WAGE SCALE

San Francisco.—Uniform minimum wage scales for the Pacific coast shipbuilding yards, a guide for all shipyards in the country, were announced by the United States Shipbuilding Labor Adjustment Board. The decision affects an increase of from 10 to 30 per cent over the old scale here, although its uniformity makes it lower in some localities than the temporary scale now in force.
The decision, the first one to be handed down by the board, declares that employers' "discrimination, interfering with the defense of the nation in time of war, against so-called 'unfair materials' would be intolerable."
Ex-Governor Henry McBride, of Seattle, for the Puget Sound district, and Richard W. Montague, of Portland, for the Columbia river district, were appointed examiners for the United States Shipbuilding Adjustment Board.

BRIEF WAR NEWS

In Palestine the British have scored a distinct success by the capture of Beersheba, including a large number of prisoners.
More than 200,000 prisoners have been taken in the Austro-German campaign on the Italian front, the Berlin war office reports.
Along the eastern front there has been little change in the situation. The Germans have evacuated the Werder peninsula. This leaves the enemy without any foothold on the northern peninsula of the Gulf of Riga, and would indicate that he is contemplating no further advance on Petrograd for the time being.
Germans have retreated from points along the historic Chemin des Dames sector on the Aisne front in France. It seems apparent that the Germans, tired of the terrible ordeal they had been forced to undergo for some time from the French artillery and violent infantry attacks, have decided to fall back upon Laon, capital of the department of the Aisne.
Great Britain and France are rushing to the aid of Italy in her critical hour. Not alone have men and guns been sent to the battle front along the Tagliamento river, where the Italians are holding the Teutonic invaders at bay, but the war brains of Great Britain and France are on their way to Italy to consult with the Italian leaders. Premier Lloyd George and General Sir William R. Robertson, chief of the imperial staff at British army headquarters, are the leaders of the British delegation, while Premier Painleve is the chief representative of the French mission.
Russia Reiterates Sincerity in War.
Petrograd.—Russia is still doing her utmost to carry on the war. She will continue to do her duty. These are the views of Premier Kerensky, whose secretary, in his name, protested against any other interpretation of his recent interview.
Army Liberty Loan Subscriptions Big.
Washington.—The American army has subscribed to \$89,273,650 worth of liberty bonds. It was announced by Colonel H. M. Lord, quartermaster corps, in charge of the army liberty loan campaign.
"Americans Captured" Says Berlin.
Berlin.—North American soldiers were taken prisoner in reconnoitering by our forces on the Rhine and Marne canal," an official statement declared.
British Again Are Advancing in West.
London.—Field Marshal Haig struck another tremendous blow at the German lines around Passchendaele ridge. "Satisfactory progress," was reported in his early statement.

VON MACKENSEN

Field Marshal von Mackensen, the German commander who administered a crushing defeat to the Italians.

PRESIDENT URGES SUPPORT FOR HOOVER

Washington.—President Wilson, in a statement, urged every home and public eating place in the United States to pledge its support to the food administration and to comply with its requests. His appeal marked the inauguration of family enrollment week, during which everybody in the country will be asked to become a member of the food administration in order to insure nation-wide co-operation in food conservation.
The president said that in no other way than through this co-operation of the people can the nation accomplish its object in the war.
"The government of the United States is asking every citizen of the country to eat less beef, pork, pork products, wheat, butter and sugar and to waste no foodstuffs as an act of common sense."
This is the explanation given by Herbert Hoover, food administrator, of the meaning of the national food pledge week, which began Monday and continues until November 4.
"Owing to the large failure of the harvest in France and Italy and the inability to send the world's shipping to remote markets," said Mr. Hoover, "we have thrust upon us a larger duty in providing foodstuffs for them than we are capable of executing unless we can reduce the consumption of these foodstuffs in the United States."

DECREASE OF GERMAN POWER IS EVIDENCED

Paris.—When General Petain rocked the German line with his uppercut to the jaw on the Chemin des Dames, the German command had to rake the whole western front to assemble reinforcements and bolster up the tottering sector.
A census of prisoners revealed that the reinforcements were collected not in units or divisions, but in such small military fragments as companies and battalions. And those companies and battalions were widely scattered along the whole western line.
There was evidence of Germany's dwindling manpower when a tour through the prisoners' cages showed a majority of those captured by the French were boys—mere youths of the 1918 class.
Petain's victory liberates Soissons from all possible menace of a German grip.
The French troops are continuing their successful drive on the Flanders front, according to the war office statement. The number of guns captured since October 23 total 160, and many prisoners have been taken.

BRIEF WAR NEWS

Field Marshal Haig's men have hammered their way still further into the German lines in Flanders.
On the Russian front the Germans in their continued evacuation have withdrawn from the entire Werder peninsula, projecting into Moon sound, in the gulf of Riga.
The Belgians and the French have captured several important salients in the region of Dixmude. Along the Aisne front the French are violently bombarding the German posts.
Further advance by Russian troops in the Riga sector, following German evacuation of a great section of ground formerly held by the enemy was announced in a Russian official statement.
Great Britain and France are preparing to lend immediate aid to Italy, and the possibility is that already troops are being hastened across the western Italian frontier and by way of Turin and Milan to the battle front in the east.
In their reverses of the past few days on the Isonzo front the Italians have lost ground that it had taken them the better part of two years to gain. Gorizia, which the teutonic forces have recaptured, had been taken only recently by the forces of General Cadorna, but Cividale, to the west of the Isonzo river, which also has fallen to Mackensen, is of Italian soil.
Italy's mettle is being critically tested by the tremendous teutonic drive on the Isonzo front under command of Emperor Charles, of Austria. Apparently virtually the entire Austrian army and strong German forces are pitted against the Italians. Berlin claims the defeat of this section of the Italian forces, from which it announces the capture of 100,000 men and 700 guns.
Italians Checking Teutonic Advance.
Rome.—Italians are checking the advance of the Austro-German troops into the plains of northern Italy, the war office announces.
General Scott is At French Front.
Paris.—Major General Hugh L. Scott, former chief of staff of the United States army, has arrived in France and gone to the front.

TEUTONS CAPTURE 100,000 ITALIANS

Rome Reports Surrender of Part of Second Army and Break of Left Wing.

Berlin, via London.—The capture of 100,000 Italians and more than 700 guns is reported in the official communication from general headquarters, which declares that the Italian second and third armies are in retreat.
The Austro-German army, under the command of Emperor Charles, who has as his chief assistant Field Marshal von Mackensen, are shaking the entire Italian line from the Julian Alps region to the Adriatic sea. Pressing back the Italians at several points on Italian soil, the combined teutonic forces now have pushed forward on the Italian left wing and captured Cividale, lying to the northeast of Udine, and are nearing the plains beyond. In addition, the Austrian town of Gorizia, a point of great strategic value on the Isonzo river, has been retaken from the Italians.
Udine, the former Italian headquarters, has been occupied by Austro-German forces, army headquarters announces.
The third Italian army made only a brief resistance to the advancing teutonic forces, from Wipbach to the Adriatic, and is now in retreat along the Adriatic coast.
The entire Italian Isonzo front has collapsed before the forces under General Otto von Buelow. The second Italian army is retreating towards the Tagliamento. All the roads are covered with columns in disorderly retreat, the crowds comprising both soldiers and civil population.

PENINSULA IS EVACUATED

Withdrawal Indicates Defeat of Plan to March Against Russian Capital.
Petrograd.—The Germans have evacuated the Werder peninsula, on the gulf of Riga, where they made a landing recently, the war office announces.
Evacuation by the Germans of Werder peninsula indicates the definite failure of the apparent intention of the Berlin war office to send an army against Petrograd.
This action leaves the net result of the recent German campaign in the gulf of Riga and adjacent waters the occupation by teutonic forces of the several islands in the gulf, which has cost them 16 warships, sunk in the campaign, two of them being modern.

Nation's Capital Now Dry.

Washington.—Washington climbed on the water wagon Thursday, November 1. On that date the act passed last year by congress making the District of Columbia dry territory became effective.

Roumanian Front Active.

Petrograd.—On the Roumanian front fighting activities are increasing. The Germans are building powerful fortifications and are massing heavy artillery.

Italian Cabinet Has Resigned.

Washington.—The Italian cabinet has resigned in a body as a result of failure to obtain a vote of confidence from the strongly socialistic house of deputies.

Paderewski to Raise Polish Legion.

Washington.—Approval has been given by the war department to Ignace Paderewski's project of raising a Polish legion in this country for service in Europe.

What Dye KNOW?

To-day it's a battle of wits—and brains win. Muscle and brawn don't count so much as they used to. The great question now is: What do you know? It draws the line between failure and success, between a poor job and a good one. What do you know? Have you special ability? Could you "make good" in a big job right now? For 25 years the International Correspondence Schools have been training men for better work and bigger salaries. They can train YOU, no matter where you live, what hours you work, or how little your education. Mark and mail the coupon and find out—it won't obligate you in the least.
