Used Cars

One of the best ways to learn to drive a car is to get a second hand one. Then any mishap is not so serious. Then there are many who hang back about buying a car because they do not feel that they can afford one of the new ones. Many of the second-hand ones are just as good as new ones as far as service is concerned and will serve your purpose until such time as you can afford a new one. Anyone can afford a car at the prices we name below on used cars, some of which are in the best of condition. You can go just as far and just as often with a second hand car and get just as much pleasure out of your trip. Look these over.

Possibly you don't like the idea of buying a new car until after you have learned to drive. How would one of these do for you to practice on? 1912 FLANDERS 20; in fair condition; not a modern car, but has lots of service left and is going quick at...\$200

1913 PATERSON; 30 h. p. Lots of power and lots of value at only...\$210

E. M. P. 30; good tires and a bargain at...\$250

Wouldn't you like to have a car that can show 'em all the way to head in at? BUICK SPEED ROADSTER in tip top mechanical condition and will do 90 miles when the cups aren't looking. Well worth more than the price...\$500

If you want class and yet do not feel that you can pay the price of a new car, here is just exactly what you want: 1913 OVERLAND; model 71; self-starter and electric lights; just as good as new for all purposes and in A No. 1 condition. We will move it at...\$600

Any use for a motor truck? If you have, take a good look at the following: STUDEBAKER combination truck; a good tire equipment and car in first-class condition; will soon pay for itself at...\$750

Most any of these cars can be bought with a small payment down and small monthly payments on balance.

LIMIT ON SUGAR SALES IS SET BY GOVERNMENT

Wholesale grocers have received a circular letter from the United States food administration directing them not to sell sugar to retailers in amounts of more than 500 pounds. The same circular carries instructions to retailers not to sell more than five pounds at a time to residents of cities and not to exceed 10 pounds to residents of the country.

This is not because of an alarming shortage of sugar, but merely as a conservation measure.

You still get want ads. at before-the-war prices—and they are of the same quality they always were. ***
