### Don't Wear Glasses

—before you have had it proved to your satisfaction that your troubles will be removed by their use.

—At the present day, too many glasses are sold simply for what is made out of them, without any regard to the eyes.

—What you need is a thoroughly sound, honest, straightforward opinion, supported by the necessary skill, experience, qualification and reputation.

—I explain plainly and fully why your eyes need glasses, and give you every proof of the benefits you will get from their use.
