The elever Athon- company, which comes to the Arcade theater for six nights, starting Tuesday night, April 16, will produce, during their stay here, the new play, "The Power of Labor," that carries the hearty endorsement of no less a personage than Samuel Gompers, president of the American Federation of Labor. "The Power of Labor" is a striking story of capital and labor, and has created a big sensation all through the country. It is claimed that this little play has done more to further the cause of the laboring man and woman than anything that has ever been said or written. During the stay of the Athon company at the Strand theater in Portland, the labor unions attended in a body, and were loud in their praise of the Athon company in fearlessly pre-senting the cause of the working man to the American public. "The Power of Labor'' is full of action, goes right down to the root of the evil, and is said to be a play that will send the blood of every true American tingling in his veins. No doubt all lovers of fair play city Friday from Rujada, where he is making his home with his daughter, Mrs. Elza Holderman.
