### S. B. HUSTON IS OPTIMISTIC OVER PROSPECT

Portland Candidate for U. S. Senate Has Assurances of Heavy Support Throughout Valley.

After making a campaign of two months' duration, during which he has covered much of the state outside of Multnomah county, S. B. Huston, candidate for United States senator, is very much pleased with his prospects. Up to the present time he has not held a public meeting nor spent any active time in his home county, Multnomah, where the heavy vote is but from this time on he will devote himself largely to rounding up his home vote.

Mr. Huston has lived in Multnomah county for 12 years and feels that he is well enough known to be able to carry his home county with little work, but he expects to carry it by 10,000 votes May 17. During the last year, perhaps fifteen to twenty thousand voters have located in Multnomah county, having found employment in the shipyards. Many of these men are entirely unfamiliar with the Oregon system and with state politics. These men have had experience in industrial plants, and will only need to be shown Senator Huston's record on social legislation to see the wisdom of voting for him in the primaries.

Senator Huston began his work in Oregon in Washington county, and his friends living in Hillsboro and Forest Grove say that he will carry Washington county with not less than 75 per cent of the republican vote. And speaking about politics, Senator Huston is making his campaign first as an American citizen and second as a republican who favors supporting the administration during the war, and otherwise stands for republican policies.

Voters who have not registered should lose no time in registering, and those who have registered but who have moved from their home precincts should be careful to have their registration changed.

### HONOR GUARD NOTES.

The Honor Guard marched Saturday, April 6, in the liberty loan parade under the command of Company Commander Belle Burkholder. Reduced to simple terms, the German belief at the beginning of this war was: "God directs Germany. Civilization advances only by combats between Kulturs in which the stronger and God-directed one has the right to prevail and must prevail. The immediate and present object is to make our Kultur prevail in the East (in Muscovy), and in accomplishing this we shall also gain economic advantages. This is the first step in our world domination."

Where does America stand in this theory of a "chosen people"? America denies that theory; she denies that God has chosen any one people as His own; she asserts rather that there are many civilizations, each with its own merits and defects, and that to each must be left the working out of its own problems.

We Americans are unable to understand, or sympathize with, a people who conceive of themselves as a chosen people, chosen of God—a people to whom all things and actions, however inhuman or brutal, are regarded as permissible, even holy, because of a faith in their superior mission and civilization. To us such a belief is direct evidence, not of a leading, but of a lagging civilization.

This German ideal, when expressed merely in theory, even though taught in Germany for the last thirty years, stirred but indifferent interest in other European nations. In this war Germany has revealed in the application of her theory a lust for world power at the expense of other peoples, a lack of good faith, a brutality that have stamped her theory as involving a return to barbarism.

By the application of German theory we were forced, unwillingly, to go to war. But today we know that there was no escape from a war between two contradictory ideals. Germany's economic objects are many and large (they will be pointed out), but the basic cause of this war was the German ideal of a dominant nation. That ideal, by Germany's own challenge, is on trial in arms. Against it we must prevail, or we shall perish.

This is the first of a series of ten articles by Professor Adams.

## WHY WE ARE AT WAR WITH GERMANY

By  
EPHRAIM DOUGLASS ADAMS  
Executive Head, History Department  
Leland Stanford Junior University

"The object of this war is to deliver the free peoples of the world from the menace and the actual power of a vast military establishment controlled by an irresponsible government, which, having secretly planned to dominate the world, proceeded to carry out the plan without regard either to the sacred obligations of treaty or the long-established practices and long-cherished principles of international action and honor;—this power is not the German people. It is the ruthless master of the German people.

It is our business to see to it that the history of the rest of the world is no longer left to its handling."

—President Wilson, August 27, 1917.

### THE GERMANS AS A CHOSEN PEOPLE

The foundation cause of this war is Germany's firm belief that she alone has the right to direct the progress of the world and to exploit its resources. For the last thirty years the military autocracy of Germany has seen to it that this belief was taught in the schools, and today that autocracy is reaping the benefits of a blind obedience to its will. German political writing of recent years is full of the idea that the German people is "God's chosen people, destined to impose its 'Kultur' upon all other peoples."

"The German soul is the world's soul, God and Germany belong to one another." "Germany is the center of God's plans for the world." "We hope that a great mission will be allotted to us Germans . . . and this German mission is to look after the world." "Germany is chosen, for her own good and that of other nations, to undertake their guidance. Providence has placed the appointed people, at the appointed moment, ready for the appointed task."

"The German people is always right, because it is the German people, and numbers 87,000,000 souls." "Kultur is best promoted when the strongest individual Kultur, that of a given nation, enlarges its field of activity at the expense of the other national Kulturs." "The attempt of Napoleon to graft the Kultur of Western Europe upon the empire of the Muscovite ended in failure. Today history has made us Germans the inheritors of the Napoleonic idea."

"The further we carry our Kultur into the East, the more and the more profitable outlets shall we find for our wares. Economic profit is of course not the main motive of our Kultur activity, but it is no unwelcome by-product." "Our belief is that the salvation of the whole Kultur of Europe depends upon the victory which German 'Militarism' is about to achieve."

These quotations are but a few of hundreds of like expression, and the last one cited is from a manifesto signed by thirty-five hundred German professors and lecturers. Reduced to simple terms, the German belief at the beginning of this war was: "God directs Germany. Civilization advances only by combats between Kulturs in which the stronger and God-directed one has the right to prevail and must prevail. The immediate and present object is to make our Kultur prevail in the East (in Muscovy), and in accomplishing this we shall also gain economic advantages. This is the first step in our world domination."

Where does America stand in this theory of a "chosen people"? America denies that theory; she denies that God has chosen any one people as His own; she asserts rather that there are many civilizations, each with its own merits and defects, and that to each must be left the working out of its own problems.

We Americans are unable to understand, or sympathize with, a people who conceive of themselves as a chosen people, chosen of God—a people to whom all things and actions, however inhuman or brutal, are regarded as permissible, even holy, because of a faith in their superior mission and civilization.
