Our fourth grade student of the month is Peyton Briggs. She is a quiet student who is always on

task. She is very kind to other students and is a great role model to others. She works hard to get her work done on time and it is always done neatly. She also spends time after school participating in activities such as ballet class while at the same time, keeping up her grades and making sure her work is done on time. Peyton never gives up on learning. Even when we are learning new and difficult skills, she puts in the extra time and effort to make sure she understands the concept before moving on.
