

# Immunizations

By law, shots are required for children in attendance at public and private schools, preschools, childcare facilities, and HeadStart programs. Oregon's Compulsory School Immunization Law (ORS.267) requires that every child in any Oregon school must be fully immunized against certain contagious diseases, or provide statements to the effect that the child is excused from immunization on religious or medical grounds. The school must be shown proof of immunizations prior to school enrollment. Transfer students will have a 30-day grace period to have their records forwarded.

Vaccines protecting against diphtheria, tetanus, polio, measles, mumps, rubella, Hepatitis B and varicella or history of chicken pox disease are required for all students. For children under 5 years of age, shots against Haemophilus influenzae type b (Hib) are also required.

For additional information about immunizations and any changes in requirements contact Lane County Public Health Services at 541-682-4041, or the school where your child will be enrolled.

Parents should consult their health care provider for additional information.
