## AN SLTV RESCAN IS NEEDED TODAY

Due to a governmental mandate, South Lane Television vacated seven of its 10 transmit channels as a part of a nationwide "repacking" of the television spectrum by the FCC. The good news is that South Lane Television has seven new channels to operate on. But once the new channels coexist with our other channels, there may be some interference issues we will need to address. Although we expect some issues, SLTV expects to be able to continue to provide the high level of service viewers have come to expect from South Lane Television.

The work we need to do on the Cottage Grove system will take two days. Beginning Monday, December 18, our engineers will begin the task of converting from the old channels to the new channels. During the conversion, KVAL (Channels 13.1, 13.2, and 13.3) and KEZI (Channels 9.1, 9.2, and 9.3), will remain on the air during the conversion.

In order to receive the new channels, a re-scan of your television will be necessary. Scanning for channels is generally found on your TV remote control under "menu" and then "scan" or "rescan" (each manufactured uses different terminology it seems). And remember, you will be re-scanning over the air "antenna" signals.

Feel free to re-scan anytime during the conversion to see if new channels have been added, with a final rescan today (Wednesday, December 20). If certain situations arise, we may need to do another rescan sometime in the future, but only time will tell. We will keep you posted on all possible scenarios in this space.

It is the goal of the SLTV Board of Directors to provide the best free television and radio service that we can. And to do it at no cost to the television viewer or radio listener.

Happy Viewing,  
Lloyd Williams, President,  
SOUTH LANE TELEVISION, INC.

These messages are brought to you as a public service by South Lane Television. Our goal is to continue serving the community with the highest quality free over-the-air television service possible.
