## **AN SLTV RESCAN MAY BE NEEDED**

Due to a governmental mandate, South Lane Television has seven new channels to operate on.

In order to receive the new over-the-air channels, a re-scan of your television will be necessary, perhaps you may have already done this. Scanning for channels is generally found on your TV remote control under "menu" and then "scan" or "rescan" (each manufactured uses different terminology it seems). And remember, you will be re-scanning over the air "antenna" signals. The channel numbers you are used to seeing will remain.

If certain situations arise, we may need to do another rescan sometime in the future, but only time will tell. We will keep you posted on all possible scenarios in this space. There are currently 34 channels on the air.

It is the goal of the SLTV Board of Directors to provide the best free television and radio service that we can. And to do it at no cost to the television viewer or radio listener.

Happy Viewing, Lloyd Williams, President, SOUTH LANE TELEVISION, INC.

These messages are brought to you as a public service by South Lane Television. Our goal is to continue serving the community with the highest quality free over-the-air television service possible.

**Stay tuned!** South Lane Television, Inc. A non profit organization serving South Lane County since 1957.
