

TYING THE KNOT

The phrase “tying the knot” is synonymous with getting married. Although the words can represent the symbolic joining of two lives together, in some cultures, getting married actually requires tying a knot. The custom traces its origins to an ancient Babylonian tradition in which threads from the clothes of both the bride and groom were tied in a knot to represent the couple’s union. Other cultures have embraced this tradition, and couples often tie ceremonial knots during their wedding ceremonies.

Inclusive. Body Friendly. Educational. Eco-Conscious. Fun!
