Boyce & Sons Landscape and Building Materials

Boyce & Sons' Inc. has been serving the South Lane and North Douglas county residents since 1969. The business was started by Bill and Ida Boyce, selling sawdust and barkmulch products. In 1985 their son, Rick Boyce purchased the business and has extensively expanded its location and its tremendous inventory.

Boyce & Sons offer a full line of lumber, plywood, roofing, siding, windows, doors, insulation, plumbing, electrical, hardware, tools, paint, stain, cement blocks and pellets. Of course they still have all the bin products, such as rock, bark, sand, plant mix, and loam. As always, if Rick doesn't have something in stock, he can get it in a day or two. He loves special orders! They continue to grow and meet the needs of Cottage Grove.

One of their newest items is the rental of U-Hauls, including selling boxes, and packing materials.
