

Dan's Plants happy to serve Cottage Grove

In business for more than 30 years

For more than 30 years Dan's Plants has been working to bring the best quality and variety of flowers, plants, produce, soil, grasses and planting containers. When visiting Dan's Plants it is more than just a typical walk through green houses. Customers quickly learn that Dan and his Wife, Peg truly care about making sure that each visitor is greeted with an old fashioned warm and caring welcome. For the past 5 years Dan and Peg have hosted a Planting Workshop.

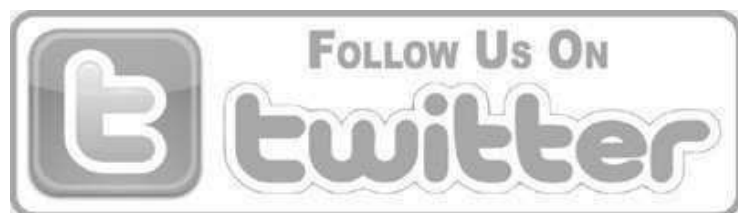

This year will be their 6th year. Each year, it gets bigger and better. Their goal is to provide a fun relaxing day for young and old alike. It gives family and friends a chance to come together, and take part in creativity, and fun. Dan and Peg enjoy watching what each person creates. Everyone is different in how they create, but each person is left smiling with pride at the end of the workshop. Vendors and face painting will be available at the Planting Workshop. Visit Dan's Plants on Facebook to see photos of the previous year's Planting Workshop.

Dan's Plants also offers gift certificates, and they are set up to take debit cards for purchases. This year's workshop is on Sunday, April 15, 2018 from 1 p.m. to 5 p.m. The cost is \$15.00 and will include a potting container along with your choice of plants. There will also be door prizes and drawings. Joe's Diner will be cooking hamburgers for \$6 and pulled pork for \$7 includes chips and a drink. Happy Planting!
