**Kid Scoop Together:**

SAFE FUN IN THE SUN

Think about important summer safety tips for kids (bike safety, pool safety, sun safety, etc.)

Select one of the tips. Then list three steps to help kids follow this safety tip. Write the tip and then illustrate it in the boxes below.

SUNBURNS!

OUCH! Hot fun in the summertime can be painful! Too much fun in the sun can burn your skin.

How does the sun burn skin?

Normal skin cells.

Cells that get too much sunlight swell and fill with blood.

This turns the skin red and makes it hurt.

Find: • banana • watermelon • moon • dolphin • car
• bat • bowling ball • crocodile • ice cream • octopus

To burn or not to burn?

Everybody has tiny grains of color called **melanin** in their skin.

Melanin grains are like a screen. They protect the body from the burning rays of sunlight. Everybody's skin makes melanin. Melanin grains are brown. When your skin is exposed to the sun, it makes more melanin. That is why your skin gets darker when you play in the sunshine.

Different skin types

Tanya has a lot of melanin in her skin. Andy and Melody have a little. Amy has very little. Some parts of Amy's body make more melanin than others. These dark spots are called freckles.

Everybody needs to protect their skin from the sun. Even people with lots of melanin will burn. Their skin won't burn as fast as Amy's, but it will burn.

Lifesaver Letters

What should you look for when you are getting too much sun? Cross out every letter that is printed twice on the innertube. The five letters left spell your answer!

Standards Link: Reading Comprehension: Follow simple directions; identify common sight words.

VBSRMHVMROAYKYBDOKE

Which two bottles of sunscreen are exactly the same?

How Hot Are You?

How many words can you find in today's newspaper that mean the same as **HOT**? Score yourself:

1-3: Pretty Cool
4-6: Hot Stuff!
7+: Steamy Hot!

Standards Link: Language Arts: Identify synonyms in reading.

Kid Scoop Puzzler

Using 12 toothpicks, try this puzzle. Lay out the toothpicks as shown below. Can you make **four** squares by moving only **three** toothpicks?

Standards Link: Math: Problem Solving; make a model to solve a puzzle.
