**Fun By The Numbers**  
Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

**Here's How It Works:**  
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

ANSWER:

**If public notices aren't in the newspaper, how will the public notice?**

Zoning changes. Tax increases. Legislative proposals. These are just a few ways government actions can affect your life and community. 80% of all Oregon adults read a newspaper at least once during an average week, and 54% read public notices printed there.\* But federal, state, and local government agencies erroneously believe they can save money by putting public notices on their web sites instead. If that happens, how will public notices be ... well, noticed? Less than 10% of the U.S. population currently visits a government web site daily.\*\* You should not have to know where, when, and how to look, or what to look for, in order to be informed. It is the government's responsibility to deliver notice to the public.

**Take notice.**  
Your right to know is being served right here: in your newspaper.
