Blood donors needed during Childhood Cancer Awareness month

During Childhood Cancer Awareness Month this September, the American Red Cross encourages eligible donors to give blood to support kids, teens and young adults battling cancer, as well as others in need of transfusions.

According to the National Cancer Institute, more than 15,000 children and adolescents in the U.S. are diagnosed with cancer each year. Childhood cancer patients may need blood products on a regular basis during chemotherapy, surgery or treatment for complications.

Blood donors of all blood types, especially type O negative and O positive, are urgently needed to replenish the blood supply following a critical summer blood shortage. As a thank-you, those who come to give blood Aug. 31-Sept. 4 will receive a Red Cross aluminum water bottle, while supplies last.

Make an appointment to donate by downloading the free American Red Cross Blood Donor App, visiting RedCrossBlood.org or calling 1-800-RED CROSS (1-800-733-2767).

In addition, donors can do good and look good this September when they donate blood with the Red Cross and get a free haircut coupon from Sport Clips Haircuts — a partner of the St. Baldrick's Foundation, which supports research to find cures for childhood cancers.

"The Red Cross and Sport Clips share a commitment to helping kids kick cancer, and we are thrilled to partner in September for the Saving Lives Never Looked So Good campaign to help bring attention to this important topic," said Donna M. Morrissey, director of national partnerships, Red Cross Biomedical Services. "We are grateful to Sport Clips for their continued support of the Red Cross and for thanking the generous blood and platelet donors who help make lifesaving treatments possible for many childhood cancer patients."

Those who come out to give blood Sept. 1-30 will receive a coupon for a free haircut via email several

days after their donation.

The coupon is valid through Nov. 11, 2018, at participating Sport Clips locations. Donors must have a valid email address on record to receive the coupon.

How to donate blood:

A blood donor card or driver's license or two other forms of identification are required at check-in. Individuals who are 17 years of age in most states (16 with parental consent where allowed by state law), weigh at least 110 pounds and are in generally good health may be eligible to donate blood.

High school students and other donors 18 years of age and younger also have to meet certain height and weight requirements.

Blood donors can save time at their next donation by using RapidPass® to complete their pre-donation reading and health history questionnaire online, on the day of their donation, before arriving at the blood drive.

To get started, follow the instructions at RedCrossBlood.org/RapidPass or use the Blood Donor App.
