A CLOSE SHAVE.

Fire Broke out in the Heart of the City But Did Little Damage.

Prompt work by the Fire Department saved the Block.

About 4:30 Tuesday morning our little city was awakened by the clamor of the fire bell and the cry of fire. The Eagle Hose company were soon on the scene but not until the whole rear end of the city Bakery in the Bennett Building was in flames and lighting the town by its lurid flames. Quick work and ample help soon had a stream of water playing upon the building and it was early apparent the fire was to be kept under control. The Kitchen, furnace room and pantry however were gutted and most of the fruit and other provisions were entirely destroyed and the loss cannot be covered with less than \$250. Mrs Jas Hart had just sold out to Messrs Sucher and Bennett a few days previous but had not removed all her fruits so she as well as the present owners and Mr Bennett will all share the loss. It was a narrow escape for had more favorable conditions prevailed the fire would not have been so easily controlled and it would have taken hard work to have prevented the loss of the entire block.

President McKinley has the LaGrippe.

WASHINGTON Jan. 9.—This morning Secretary Cortelyou reported that the president had passed a comfortable night, and that his case was yielding readily to treatment. No unfavorable symptoms had appeared but from the nature of the disease, the President will be compelled to keep his bed for some days.

NOTICE—Is hereby given that I have sold out my harness business and all persons indebted to me by note or account will please make settlement at earliest moment possible. W W CHRISTMAN.

United States official Report

MADE TO

commissioner of the United States General Land Office, Washington D C.

by a Geologist and Mining Expert of world wide reputation, Professor Benjamin Silliman who spent several months there then being connected with the United States Surveying Corps and in his official report says: "HERE ARE COUNTLESS MILLIONS OF TONS OF RICH GOLD QUARTZ reduced by the great forces of nature to a condition ready for the application of the hydraulic process while the entire bed of the Rio Grande for 40 miles is a strata of the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages and holds it ready for extraction by the most approved methods of hydraulic mining. THE TONNAGES OF THE RIO GRANDE GOLD GRAVEL EXCEEDS IN MANY PLACES 600 FEET OR NEARLY THREE TIMES THAT OF THE LIKE BEDS IN CALIFORNIA WHILE THE AVERAGE VALUE PER CUBIC YARD IS BELIEVED TO BE GREATER IN THE NEW MEXICO BEDS THAN IN ANY OTHER SUCH ACCUMULATIONS YET DISCOVERED. I have made a reconnaissance of the whole of this gravel along the Rio Grande and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. NOTHING I AM PERSUADED SINCE THE DISCOVERY OF CALIFORNIA AND AUSTRALIA, IS COMPARABLE FOR ITS MEASURABLE RESOURCES OF GOLD AVAILABLE by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this Company the richest and most extensive known.

A Tension Device is a simple thing, and yet good sewing is impossible without a correct tension. You know this from experience.

We Claim that our Pince tension is without a peer. It pinches the thread just enough to produce a smooth, elastic stitch.

Our Tension Indicator shows the state of tension at all times. A tension can be changed or duplicated at any instant. Every machine user will appreciate this device.

Our Tension Releaser (on reverse side of face plate) operating with lifter bar, instantly removes all tension from thread.

TO PREVENT DECAY

Wood Preserver Used by Uncle Sam's on Yamhill River Work.

Merits of Avenarius Carbolineum Recognized by National, State and Municipal Governments.

The fame of Avenarius Carbolineum has steadily extended as the only bona fide preserver of wood, since its discovery in Germany thirty years ago. It has stood all tests of climate soil and water and steadily lived down all pretended rivals. Today it is not only employed in all countries for the preservation of wood used for household articles articles such as houses, barns, fences etc, but the national government, both of Europe and America, have recognized its value in saving public constructions from decay. Following their example cities and counties have also adopted avenarius carbolineum for bridges pavements etc, and the leading ship builders and railroad companies have shown their faith in its merits by treating ship timbers, cars, telegraph poles and ties with the same never failing preventative against climatic decay and repacious wood boring vermin both of land and water.

Great bodies move slowly and act after mature deliberation. It may therefore be safely stated that governments and corporations did not employ avenarius carbolineum until fully convinced of its money saving as well as wood preserving qualities. Private individuals desirous of lengthening the life of wood work and at the same time curtailing expense, need not fear to follow the precedents established.

Recent local examples proving the truth of the above statements are not wanting. The reconstructed Madison street bridge in Portland has been treated with avenarius carbolineum, as has also the pavement at the intersection of third street in that city where the heaviest street car and wagon traffic converge. The latter used of the compound was made at the earnest solicitation of street car managers who confidently took for gratifying results. The gentleman in charge of the United States engineer department for the Oregon are now applying avenarius carbolineum to the dams and lock work on the Yamhill river a flattering tribute to its merits which was certainly not extended until searching investigation satisfied the authorities that it was a measure of practical economy.

With such examples before them it would appear that the individual is foolish and the official almost culpable who does not protect his own or the taxpayer's pockets by using this compound thus saving from decay, and lengthening the life of all frame structures for which he is individually or officially responsible.

That Cough Hangs On

You have used all sorts of cough remedies but it does not yield, it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.
