THE OREGON LEGISLATURE

Sidelights on Most Recent Session by One Who Was on the Job Down There

By ELBERT BEDE, VII. PROGRESS OF A BILL. Those not familiar with the conduct of a legislative session wonder why it is that a bill may be introduced upon the first day of a session and not get up for final passage until the closing days.

It would be impossible to give all the details of the various methods by which a bill may be delayed but an effort will be made to explain succinctly so that no one need wonder longer what keeps the little bills out so late.

Introduction of a Bill.—The proper way for a committee to introduce a bill is to arise when that order of business is reached, to inform the speaker that he has a bill and to take it to the desk as a matter of fact, however, many bills are left at the clerk's desk by members and are ready to be read when that order of business is reached.

At this stage, or at any other stage for that matter, an author may ask that he be permitted to withdraw the bill. While a bill is before committee various interests may ask to be heard for and against the proposed legislation.

A committee may report a bill back with the recommendation that it do pass, that it do not pass, with or without certain amendments, that it do pass with substituted therefor or that it be referred to another committee, or there may be a divided committee report.

A recommendation that it do pass or a failure to make any recommendations puts a bill on the calendar for final passage. A recommendation that a bill do not pass opens the way for a bill to be reintroduced at a later date.

In calling the roll upon final passage, however, the entire list of names is always called, although in the closing days of a session, when the ways and means and other important committees must be in session at the same time that the main body is in session, it has happened that important bills have been enacted into law under conditions that would have been found contrary to

POSTAL SERVICE SLOW BUT SURE; PACKAGE TRAVELS 14 MILES IN YEAR AND HALF

The postal department moves slowly although sometimes rather speedily. A package mailed in Portland just before Christmas in 1921 by Miss Belle Burkholder and addressed to Miss Elizabeth Sibly in Oregon City, only 14 miles away, arrived there in February of 1923.
