The city is asking for a total budget of \$135,935-92, up about \$27,000 over last year's, with the amount over the 6 per cent limitation up about \$8,000.
Council and budget committee members in deciding to put the same budget up to the people again said citizens voted against the budget for the following reasons:

3. Citizens did not like the high water rates.

4. No wage raises given city employees to keep up with cost of

living.

The council answered these objections as follows:

1. Everything is high in these times of inflation. The people who are against high cost of government still charge more and pay more for goods or services and think nothing of it.

However, the total tax levy including city, schools, county and jections as follows:
