BLM from B1

BLM-managed public lands offer a wide array of recreational opportunities, including hiking, hunting, fishing, camping, mountain biking, horseback riding, boating, whitewater rafting, off-highway vehicle driving, rock climbing and more. Americans make approximately 67 million visits annually to BLM-managed

lands, supporting approximately 48,000 jobs nationwide and contributing almost \$7 billion to the U.S. economy.

On fee-free days, site-specific standard amenity and day-use fees at BLM recreation sites and areas will be waived for the specified dates. Other fees, such as overnight camping, cabin rentals, group day use, and use of special areas, will remain in effect.

ODFW from B1

Recent rains have fish on the move in the Clackamas River, which is running a bit high. Look for fishing to pick up as water levels start to drop.

Anglers have been catching fish through the ice on several waterbodies including Kinney Lake, Lofton Reservoir, Magone Lake and Phillips Reservoir, Unity Reservoir and Yellowjacket Lake. Recent cold temperatures have improved ice conditions on other waterbodies as well.

In the upper Willamette River, in areas below the dams (Fall Creek, Dorena, Cottage Grove, Hills Creek, Dexter), the trout fishing can be quite good. However, there is no bait fishing in these areas after Oct. 31.

ICE FISHING SAFETY

With several water bodies beginning to ice over, anglers need to be cautious during first-ice conditions. Take the following precautions: use the “buddy system,” wear a PFD in case of thin ice, carry a throw-rope, and use a heavy metal staff to check for thin-ice. The Minnesota DNR has developed guidelines for ice thickness and other safety tips.

UMPQUA WINTER STEELHEAD STUDY

Anglers who harvest a hatchery winter steelhead in the Umpqua Basin are asked to turn in the snouts from those fish. Some of these snouts contain small tags, which are not externally visible. Anglers who turn in snouts with these tags are entered into a raffle for a \$50 gift card.

Snout collection barrels are located around the basin, Sportsman’s Warehouse in Roseburg, or

the Roseburg ODFW office. Tags obtained from the fish will inform ODFW on the best hatchery release timing strategy to provide the most fish back to anglers in the future.

ELK RIVER: Chinook, Steelhead
New Chinook regulations for 2020. Jan. 1 – March 31 open for hatchery Chinook retention only. Wild Chinook harvest is permitted May 22 – Dec. 31. Please see the 2020 fishing regulation book for more details.

Steelhead Fishing is open through March 31; then May 22 – Dec. 31. The wild steelhead bag limits are 1/day and 3/year as part of a zone-wide accumulative daily or annual salmon/steelhead bag limit.

To check current river conditions, call 541-332-0405.

COTTAGE GROVE POND (ROW RIVER NATURE PARK POND): trout, warmwater species

Was last stocked Dec. 30 with 100 giant rainbow trout (brood-ers).

Cottage Grove Ponds are open to year-round fishing via an asphalt pathway behind the truck scales on Row River Road. In addition to fishing, these ponds also offer wildlife viewing opportunities and a fishing dock is available on-site.

JUNCTION CITY POND: trout, crappie

The pond will be stocked this week with about 1,100 legal-size hatchery trout. There are likely a few of the very large brood trout that were put in during the holidays still available for anglers to catch. This pond is stocked semi-regularly throughout the winter. Anglers are allowed to keep only one trout over 20 inches as part of the five fish bag limit.
