**SLSD from B1**

limits for each room in every building, and organizing safe transportation.

As the summer progresses, the district will seek input from community leaders and community members to ensure that our plans and procedures have specific plans to share with staff and the community.

**Content and Delivery:** This committee has proposed a student schedule for the Fall. While the plan maintains the current school days that SLSD already had planned for the year, the way those look will be very different.

ODE Guidance around

safety and hygiene severely limit the amount of students we can have in the building at one time. The current schedule proposal meets these guidelines and is laid out here:

- Each school has two groups of students: A and B.
- Each group attends school in person two days per week (Mon./Thurs. or Tues./Fri.) and the other three days they will participate in distance learning.
- Wednesday will be called "Wellness Wednesday" and used for staff to check in with students, and to create distance learning materials.

SLSD staff put significant time into exploring many different scheduling options

but settled on this proposal for several reasons.

It fits within SLSD's established priorities to have regular contact with all students, allow extra time for groups with more needs, focus on care and connection (especially in the beginning), and provide staff time for prep, professional development, and focusing on care and connection. In addition, it allows for the required components that the state has laid out including proper cleaning between groups, cohort tracing, limited number of students at school, and a quick shift to distance learning for any amount of students.

**Social Emotional Needs:** This team is planning to use

Wednesdays, or "Wellness Wednesdays" to support families and students with technology, and the new expectations for school this upcoming year.

They are also ensuring that teachers have curriculum and any necessary professional development to meet the social and emotional needs of students. In addition, they will work with community partners and experts in the field to provide purposeful social justice and equity instruction.

"We appreciate the work of our committees, and will soon provide opportunities for the community to provide us valuable input," Curtis said.

**Lions from B1**

with four playoff appearances in the six total years. Prior to his arrival, Sandy hadn't achieved a winning season in football since 2004.

Before his tenure in the Portland area, Polamalu was head coach of the Douglas Trojans in Winston, finishing his five seasons with an impressive 40-19 overall record.

"He's really even-keeled, doesn't get rattled, really good with connecting with kids on a personal level so that they'll buy in to the

program," Myers said. "He's super steady. We always want a steady person on our staff, so we're psyched."

For the Lions, there is hope that Polamalu can bring this winning tradition back to a community that had gotten used to success under long-time head coach Gary Roberts. There were just two years between a forgettable 0-8 2019 season and an undefeated 2017 state championship run.

"You can't turn things around overnight, but it feels like we're headed in the right direction," Myers said.

**ODFW from B1**

**RIVERS AND STREAMS**  
All rivers and streams in the northwest part of the zone are near summer low levels. Trout anglers will want to head to upper tributaries or headwaters in search of cooler water.

In the mid-Valley, rivers and streams are in great shape. With recent rains and higher than normal flows, river temperatures are currently very good for fish, which means they will be actively feeding. Trout fishing should be very good pretty much anywhere.

**BLUE RIVER:** trout  
Will be stocked this week with 733 legal-sized hatchery rainbow trout.

Two wild trout may be harvested per day above Blue River Reservoir only. Otherwise, anglers may keep five hatchery trout per day.

**CLEAR LAKE:** trout  
Stocked in late June with 2,900 legal-size and 250 trophy rainbow trout.

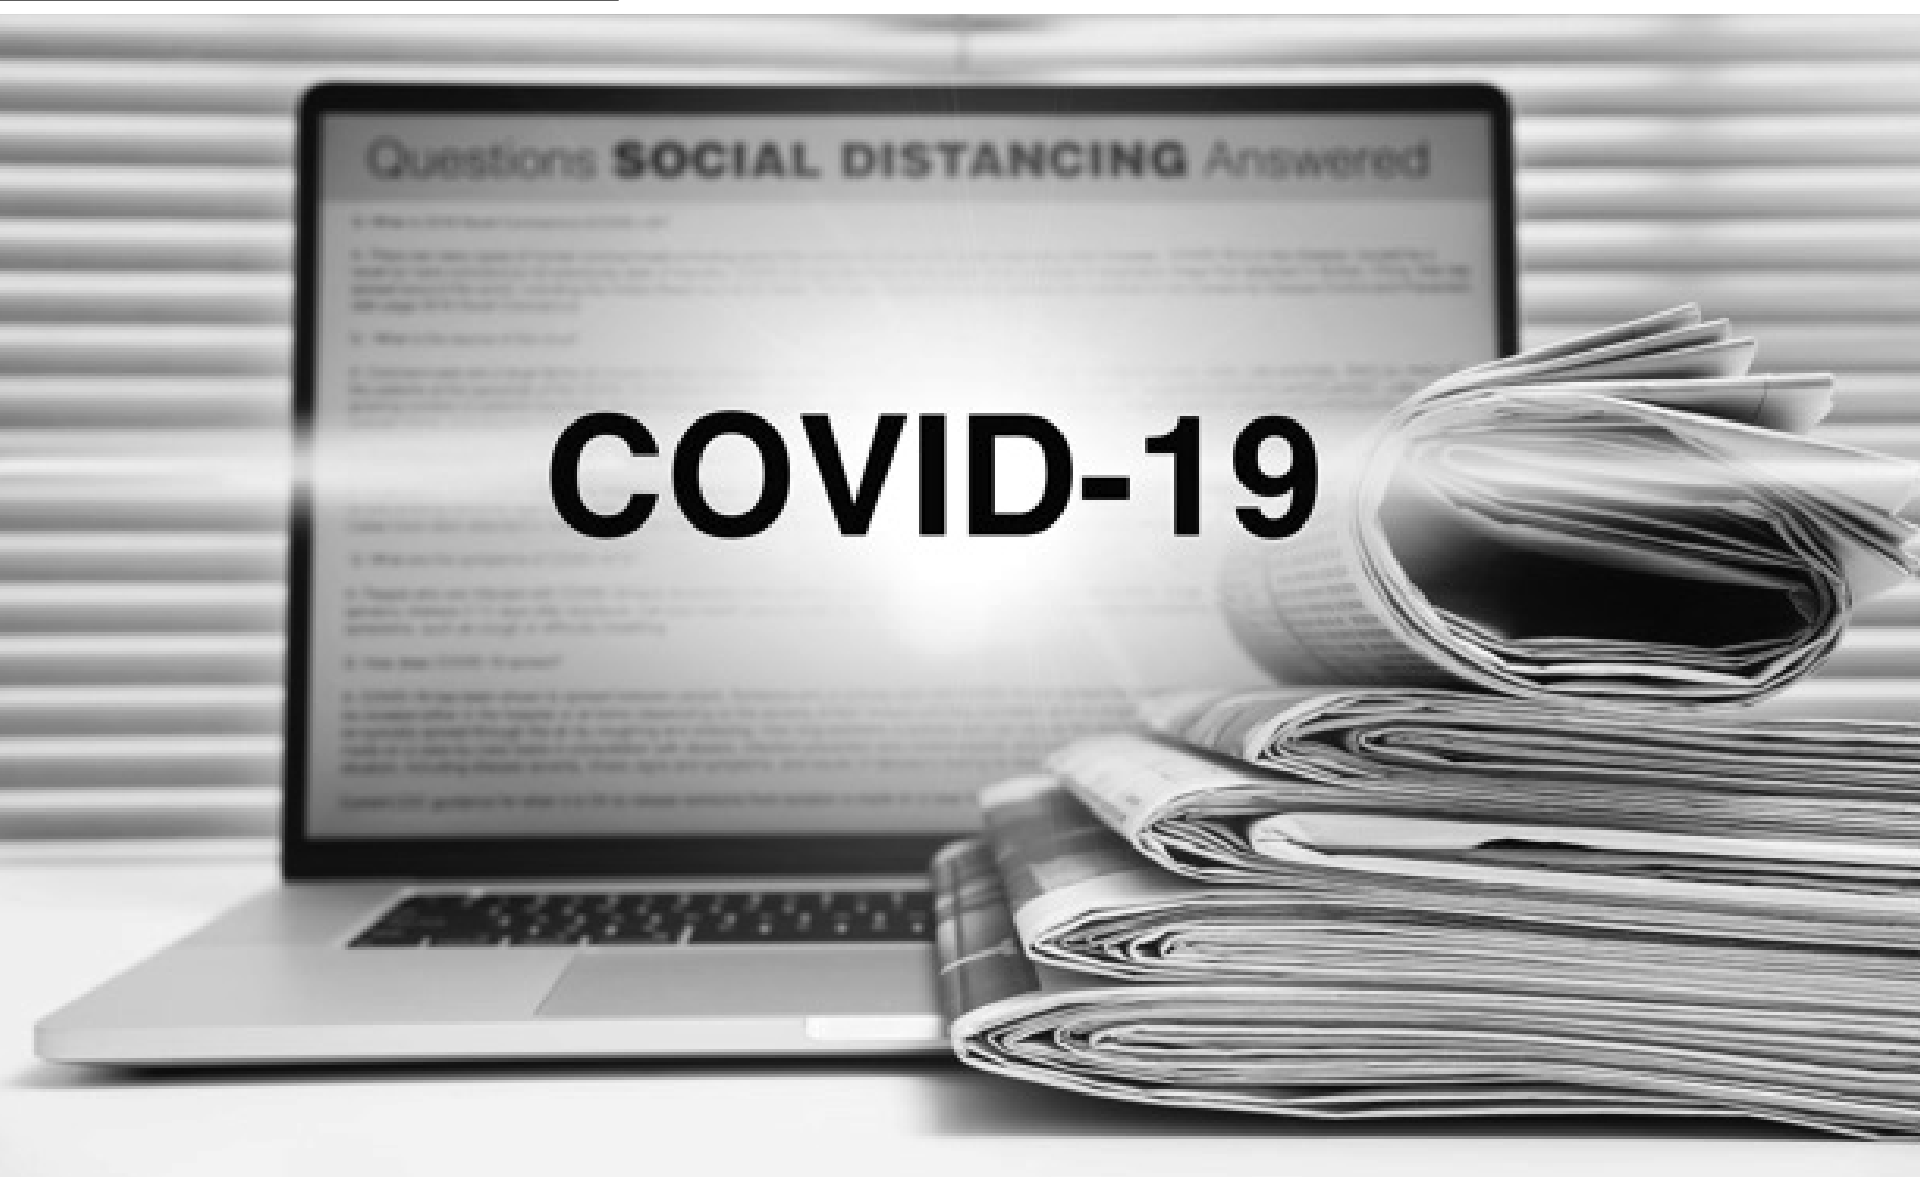

**FALL CREEK:** trout  
Will be stocked this week with 1,200 legal-size trout.

**LEABURG LAKE:** trout  
Will be stocked this week with 933 legal-size rainbow trout.

**MCKENZIE RIVER** above Leaburg Lake (R2): trout, steelhead

Will be stocked this week with 833 legal-size trout.

**SALMON CREEK:** trout  
Will be stocked this week with 667 legal-size trout.

**COVID-19**

**ALL TOGETHER NOW.**

We've been hard at work reporting the latest news and informing you about a pandemic that's disrupted everyone's lives. We're proud of our brand of trusted journalism.

Now, as our nation looks to reopen, rebound and resurge, our advertising representatives are here to help your business. Hire us to help get your customers back and your employees ready. Nobody cares more about your success than us.

No one has an engaged audience like ours. Our growth online, combined with print, is impressive as more readers turn to us for local news.

**Newspapers are your best investment.**  
We care about local.
