SLTV UPGRADING TRANSLATOR EQUIPMENT

For the past several weeks, South Lane Television has been replacing most of our approximately twelve-year old translators on Hansen Butte. Last year the FCC mandated channel changes across the Country to assist cellular telephone's expansion. Necessary parts are no longer available for the translators being replaced. The remaining few translators that did not have to be moved to new channels, will continue in service (with plenty of back-up parts!).

Over these past few weeks, you may have noticed your favorite channel off-the-air for about ten minutes. In order for SLTV engineers to complete each translator installation, the affected translator has to be "off-air" for a short period of time in order to complete the installation. These interruptions will occur during the day and not during prime time. We are almost done. If you find one of your channels gone, don't rescan -- it will come back. The channel changes will not affect the way you watch TV. All your channel numbers will remain the same.

South Lane Television is committed to providing the best translator television service possible. We have one of the most advanced translator systems in the United States. And with 40 channels of free over-the-air digital TV, there are very few systems that compare. If you can see the SLTV towers, you can receive our signals at no cost. All you need is a good quality antenna aimed toward our towers. For reception in Cottage Grove and London, you'll need a good quality (never a cheap one!) UHF antenna, and in Dorena/Culp Creek you'll need a VHF antenna. See the "Technical" tab on our SLTV website: southlanetelevision.org for details about antennas and reception in your area.

We at SLTV hope you have a joyous holiday season.
Happy viewing,
Lloyd Williams, President - SOUTH LANE TELEVISION
