

The Great Skateboard Debate

Should people be able to ride skateboards on sidewalks? Some people say, "For sure!" and others say, "Definitely not!" Today's *Kid Scoop* looks at both sides of the issue and lets you ask, think and decide for yourself.

Skateboards on sidewalks?

YES!

Streets are dangerous places to ride skateboards. Riders risk being hit by a car or falling in front of one.

What's YOUR opinion?

Before you answer, ask, think and then decide.

The U.S. Consumer Product Safety Commission suggests that skateboarders should never ride in the street.

Skateboards on sidewalks?

NO!

Some people are afraid that skateboarders zipping along sidewalks endanger pedestrians, especially older people and small children who may have difficulty getting out of the way of a speeding skateboard.

Concerns for the safety of skateboarders and pedestrians has led to the development of skate parks in many communities.

Ask!

Ask friends and family members for their opinion. Write down their reasons **for** or **against** skateboarding on sidewalks on a sheet of paper.

Think!

List three reasons why some people say YES to skateboards on sidewalks and three reasons why some people say NO to skateboards on sidewalks.
