Halloween Safety for Kids & Pets

In all the excitement surrounding Halloween, it can be easy to overlook potential dangers faced by kids and pets each year. Take a moment to review these safety tips to help ensure a fun-filled holiday and prevent any real scares!

Trick-or-Treat Tips to Keep Li'l Ghouls & Goblins Safe

- Never let kids trick-or-treat alone. Older groups trick-or-treating without adult supervision should make sure a parent knows the planned trick-or-treat route.
- Remind kids to walk, not run, when trick-or-treating. Instruct trick-or-treaters to use crosswalks and caution when crossing streets or driveways, and stay aware of their surroundings at all times.
- Make sure costumes and masks fit well to avoid tripping hazards or difficulty seeing or breathing.
- Use only non-toxic makeup and cosmetic-grade, eye-safe glitter on the skin and face.
- Make sure kids carry a flashlight, and attach reflective tape to costumes and treat bags to enhance visibility.
- Eat only factory-wrapped candy that has not been opened.
- Wearing a cloth mask over the face and nose when trick-or-treating in a group this Halloween can help keep kids healthy.

HalloWag Safety for Dogs & Cats

- Keep candy out of reach from pets. Xylitol sweeteners and chocolate in particular can be toxic to dogs and cats.
- Keep pets inside and away from the front door for their security and the safety of trick-or-treaters.
- Costume carefully if you're dressing up your pet, taking care not to restrict their movement, vision, hearing or ability to breathe. If your pet is distressed by wearing a costume, remove it immediately.
- Make sure your pet is microchipped and wearing a collar with identification tags to help ensure his or her safe return in the event of a Halloween escape.
- Keep candle-lit jack-o'-lanterns and other candles a safe distance from pets who may knock them over or burn themselves.
