FRIDAY, JAN. 25—1895.

Now, if you are inclined to think the purchase of the rock crusher, by the Lane County Commissioners, a bad move. On the contrary everyone is loud in their praise of the effective work being done on the county roads adjacent to Eugene, augmented by the crusher. However, there are other roads beside those leading directly into the city that need some attention, and some of them are up this way. It is to be hoped that some direct line of communication can be made clear to do that this rock eating machine can be used in developing some of the hollers in this part of the county. We are a few miles from Eugene it is true, but we need some attention, especially in the matter of roads, notwithstanding. This has been an important item in its many transactions, and we do not know how it is that we will not get material assistance on the “good roads” proposition that is now offered to demand such attention from our people from on low.

James Smith, who was found over last week in Johnnie Wintemitter’s court at Eugene, for having a large number of dills, has given bail and is at large.

This bail business is getting to be a nuisance, it seems to us, that no matter what crime a man may commit there is bail and bail pretty well and if he can liquidate said bail, he can get out and migrate to pastures new and start a new life of misfortune. This is wrong. If a man is a catch in the midst of stealing, or selling in a prove of theft, let him be punished. This licensing a man to steal and otherwise: wise break the laws of our land is disgusting and should not be tolerated.

Brother Amos of the Bow—lays down some directions by which our city bears of order, which may again possess a luxurious crop of locks. In giving the directions for the Bow— we advise to apply the mixture to the hair by rubbing it on the scalp. Now, Jim you don’t want to mix it up that way for? Here’s a fellow going to apply it to the black of his cap in the scalp, when its as smooth as a tailed bill and there hasn’t been a sign of growth for so many years.

The Mennonite, published at Medford and for some time under the editorship of Mr. B. H. Phipps, has changed hands. Mr. Phipps has sold this religious and educational paper, and transferred his lease of the Mennonite to A. H. Chesmore and Rev. S. C. Allen. The Mennonite has been a good paper under Mr. Phipps’ management and we trust his successors will do so.

NOTE TO CORRESPONDENTS.

The Bohemia Nugget is depository of all letters of instruction, correspondent, either lady or gentleman, is everywhere in neighborhood of the Nugget, and all correspondents are invited to write to us, as we will make due acknowledgment of all capacity if they notify us of their acceptance. We want a regular correspondence on a week’s possible.

If you want to meet with success in life, work is required in whatever- chace you pursue.

The people started the ball rolling, the house gave it a big push, the superintendent of the river, and Cottage Grove is the result.

We do not wish to appear vain, but the same as we can’t help but appreciate the words of praise and kindly interest taken in the first issue of Bohemia, thereby the urge.

While you are remembering some other things, don’t forget to re- member that library that is being formed here. It will be a good advertisement for Cottage Grove.

It shall not be sold of Cottage Grove a year hence that people are obliged to remove to Eugene on account of making it necessary to be able to procuring houses in which to live. We shall be ‘in’ out of the wet era.

Tom Sharkey who recently whipped McCoy in the pugilistic ring, and Fitzsimmons—Lucky Bob—are about to meet in a roundEVW. Marbles to chalk that there won’t be any whipping of his life if he goes against the braveness blacksmith.

Cottage Grove and the great Bohemian country will be well adver- tised throughout the states of this Union. Each mail brings letters and postal cards asking for infor- mation regarding this town and the men, and a sample of the Bohemia Nuggest.

Governor Geer has been insulted already. A populist paper has already referred to him as “a border- line on the doctrine of populism.” Governor Geer is a man calculated to bear heavy burdens. His make up indicates that he can stand most any kind of disappointing reversals—last, this is the unlikelihood cost of all.

The United States government is making arrangements as fast as possible to bring home the bodies of our soldier boys who have given up their lives in foray Manila. The body of every soldier will eventually find a resting place in his native land. What greater honor can a government of a mighty country confer upon any of its citizens.

When our legislators get through with the state roads and fish hate and laughing’ at their own state joke, for the want of something better to do they might enact a law, prohibiting fish companies, doing business in the state. The people need a little protection in this line as well as others. A company of players who fail to present the bill they have advertised to the public, should be prosecuted.

It is beyond dispute that there has been an immense amount of work put upon the streets of Cottage Grove, and it is quite as near the end as you would expect. That at present we have as muddy streets as any city in Oregon. It is not worth the while to haul gravel upon our streets with the view of improving them until we shall have provided a drainage system. As it is today there is very little washing of the face water can be removed from the streets other than by passing the grit and gravel upon the streets into the ground, the result of which is a great drain upon the supply of water. We need the constant travel upon the gravel, the gravel to be crushed into the softened earth and the mud and water to course to the ocean, where it will be dried and the proper drainage system, then graded and thoroughly gravelled they will stand, and in the end be a money saving proposition to the taxpayer. What is worth doing is worth doing in a big way.

Jimboree as inmate of the soldiers’ home at Dodge City, Kan., who had been buried because it is supposed he had died from typhoid fever, was exhumed after two days, and it was found he was only in a trance. He revived, and stated that he was half conscious of every- thing that was said to him, but was helpless to do anything to save himself from his impending fate. One at the soldiers’ board that feeds the man was not dead and caused the exhumation with the result stated.

URHURR FOR GOV. GEER.

He Signs the Charter for Greater Cottage Grove—Other Notes.

Kichen, Jan., 24.—Governor Geer this afternoon, signed the Cottage Grove consolidated charter, and henceforth your people can be as one.

W. H. Byers correspondent of the soldiers home at Roswell, N. M., has been dismissed from the duties of that office, as he was arrested January 1st.

The house today passed the resolution in a number of minutes considered an entire, and henceforth the cottage and cottage Grove, etc.

The house passed the resolution which we report above. This resolution provides for a continual annual changing of the name of the town to vote any portion of the appropriation bill.

The supreme court’s great building is at an end, the men ruined and the ground soiled to the value of $500,000. The roof all puddled and ground. The buildings are all ruined and the ground soiled to the value of $500,000. The roof all puddled and ground.

The house passed the resolution above, the building of the building. The roof all puddled and ground. The buildings are all ruined and the ground soiled to the value of $500,000. The roof all puddled and ground.
