NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss GERTRUDE SIKES, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhœa. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sanative Wash has cured me of leucorrhœa. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

TRIBAL CHART OF THE PHILIPPINES.

The area of the Philippines, 114,300 square miles, is equal to New York, Pennsylvania and New Jersey, with a total population less than that of New York—9,500,000. The survey of the islands, made in 1882, shows fifty-one different native tribes, speaking over thirty languages. These are divided into the aboriginal population, mixed with Malays; the pure agricultural Malays, and the piratical Malays. The blank spaces in the map are the regions still occupied by the various aboriginal and semi-aboriginal tribes. In Central Mindanao these tribes are still naked heathens. In North Luzon, with the Aroyos and Igorrotes, these tribes have passed out of the savage state. The various tribes occupying the bare places, from thirty to forty in number, are all individually small. The Tagales in South Luzon, the Vicolos on the east, and the Visayas in the central and southern islands are made up of peaceful and partially Christianized Malays. The piratical Malays in the Sooloo archipelago and the edges of the adjacent islands, are a savage and bloodthirsty race, carrying fire, sword and rapine to all the surrounding islands.

A MONSTER FOSSIL.

Discovery in Wyoming of Dinosaur that Was 130 Feet Long.

Wyoming is writing a strange chapter in the world's geological history. The big sagebrush Commonwealth is scoring a record-breaker in fossil formations by unearthing the petrified bones of the most colossal animal ever taken from the earth's strata. This stone monster was a dweller in the Jurassic age—a dinosaur, measuring

A DINOSAUR OF ANCIENT TIMES.

nearly 130 feet in length and being perhaps 35 feet in height at the hips and 25 feet at the shoulders—an animal so terrible in size that its petrified skeleton alone is believed to weigh more than 40,000 pounds.

Assistant Professor W. H. Reed, of the department of geology in Wyoming State University, is its discoverer. He made the great find while prospecting for fossils ninety miles northwest of Laramie last August; and since that time the geological department of the university has been secretly at work in its restoration. So vast is the skeleton of the animal that its smallest bone yet found is more than a man can lift, and, with men in the field constantly at work, it is believed that many months may be required before the monster can be placed on the campus at Laramie.

Conjecturing as to the probable appearance in life of the creature, Prof. Reed says:

"An accurate idea of a living dinosaur is practically out of the question. According to my opinion, I should say that the animal now being brought to light would weigh in life about 60 tons, that he had a neck 30 feet in length, and a tail perhaps 60 feet in length. His ribs are about 9 feet in length, and the cavity of his body, with lungs and entrails out, would make a ball 34 feet in length, 16 feet in width, and, arched over, probably 12 feet in height. Such a space, if properly arranged, would seat at least 40 people. A round steak taken from a ham of the animal would have been at least 12 feet in diameter, or more than 35

feet in circumference, and would have a solid bone in the middle, 12x14 inches, with no hollow for marrow. A set of furs in cavalry could easily have ridden abreast between his front and hind legs, provided he had not objected. Every time he put his foot down it covered more than a square yard of ground, and must have fairly shaken the earth. The smallness of the head of this animal is a peculiar thing. I should say that the head of this mighty dinosaur was probably not larger than a ten-gallon keg. He must have been a very sluggish creature, as the brain cavity would certainly not warrant the belief that his brain weighed to exceed four or five pounds."

MRS. THEODORE ROOSEVELT.

Personality of the Wife of the New Governor of New York.

Mrs. Theodore Roosevelt will not consent to be interviewed, neither will she give her photograph to the newspapers for publication. She is not haughty, nor excessively modest, but she dislikes this form of publicity, and Mrs. Roosevelt is very much like her husband in one respect—firm when her mind is made up. However, the snap shot fiend has caught her unawares, and the newspapers are publishing the result. It does not do her justice, though the likeness is almost perfect. It is just how Mrs. Roosevelt looks on the street in winter dress.

The mistress of the executive mansion at Albany was a Miss Carow when she married Roosevelt ten years ago. She was an intimate friend of the first Mrs. Roosevelt. She is in the early 30s, of medium height, with fair complexion, dark eyes and hair, and possesses a remarkable charm of manner. The

After-Effects of the GRIP

Grip is a treacherous disease. You think it is cured and the slightest cold brings on a relapse.

Its victims are always left in a weakened condition—blood impure and impoverished; nerves shattered. Pneumonia, heart disease and nervous prostration are often the result.

Dr. Williams' Pink Pills for Pale People will drive every trace of the poisonous germs from the system, build up and enrich the blood and strengthen the nerves. A trial will prove this. Read the evidence:

When the grip last visited this section Herman H. Evler, of 111 W. Main St., Jefferson, Mo., a well-known contractor and builder, was one of the victims, and he has since been troubled with the after-effects of the disease. A year ago his health began to fail, and he was obliged to discontinue work. That he lives to-day is almost a miracle. He says:

"I was troubled with shortness of breath, palpitation of the heart and a general debility. My back also pained me severely. I tried one doctor after another and numerous remedies suggested by my friends, but without apparent benefit, and began to give up hope. Then I saw Dr. Williams' Pink Pills for Pale People extolled in a St. Louis paper, and after investigation decided to give them a trial.

"After using the first box I felt wonderfully relieved and was satisfied that the pills were putting me on the road to recovery. I bought two more boxes and continued taking them. After taking four boxes of Dr. Williams' Pink Pills for Pale People I am restored to good health. I feel like a new man, and having the will and energy of my former days returned, I am capable of transacting my business with increased ambition.

"Dr. Williams' Pink Pills for Pale People are a wonderful medicine and any one suffering from the after-effects of the grip will find that these pills are the specific." H. H. EVLER.
 Mr. Evler will gladly answer any inquiry regarding this if stamp is enclosed.—From Cole Co. Democrat, Jefferson City, Mo.
