DEWEY'S ARMADA.

In raising the battered hulks of Montojo's sunken fleet, Admiral Dewey has surrounded himself with an auxiliary fleet which is better than the names on the prows. There are nine reclaimed Spanish vessels now flying the Stars and Stripes, manned by American officers and men and plying the bay of Manila in the service of the United States. They need only

BOHEMIA NOTES.

Devoted to Mines and Miners---Nugget's Special Correspondent's Weekly Grist.

MR. EDITOR: The impression has gone abroad that work in this camp has been practically shut down for the winter, at least such has been said by some of your townspeople. But it is far from the truth, as you will see from the following notes picked up by your correspondent in only one day's travel.

Johnson and Byrne Bros are driving a tunnel on their claim near the mouth of Grizzly creek. Thus far they have drifted about 20 feet and the face of the ledge shows a body of copper ore about three feet wide, and high grade, as their last assay gives returns of \$60. They have also done considerable work in the way of excavating for the purpose of building a large ore bin. They have about 10 tons of high grade ore on the dump at present and as soon as the weather permit they will make a shipment to the Tacoma smelter. They have five claims in this group, nicely located with an abundance of fine timber and water. They intend to incorporate in a short time and push the work of developing this property. They are all thorough mining men and understand the business in all its details, and we predict success for them.

Mr. Geo. Thompson has begun the erection of a cabin near Downing point on the Champion trail, where he has lately discovered a good looking prospect, and as soon as the cabin is completed he will begin development work. This will be a desirable location as it is practically below the snow line, and it is hoped he may strike it rich.

James Potts and Jesse Griffin did some good work on the "Shot Gun" claim, above the Champion mill, showing up a large body of fine looking quartz.

Jas. Sears has lately located a claim on the north slope of Fairview mountain which he calls the "Pennsylvania." He has a well defined ledge six feet wide and every pan shows free gold, both coarse and fine. Jim is one of the fixtures in the Bohemia camp and is sure to meet with the success he so well deserves.

Louis Betters is pushing development work on his claim on Elephant mountain. He has lately located some valuable property in the same vicinity.

The Montana Co. under the efficient management of Mr. J. D. Fletcher, are working a force of men both day and night. There are golden opportunities for many more such enterprising companies as the Montana.

Ed Jenks, the competent foreman at the Noonday mine, and Wm. Higgins recently located some valuable property in the vicinity of the lake, near Elephant mountain, and will shortly do some extensive development work on the same.

The Fairview Mining and Milling Co. have struck a large body of rich free milling ore and are still pushing on preparing for a steady run as soon as spring opens. This company is composed of Messrs. Stocks, Harlow and Brush, and are experienced mining men. During the past season they have erected and now have a complete five stamp mill on their property. They made a short but satisfactory run during the winter, and now since they have made this new strike, this will certainly prove to be one of the dividend payers of the camp.

The Noonday company are pushing right along and getting everything in first class readiness for a steady run of their 20 stamp mill early in the spring. They have large bodies of ore blocked out, and are now better than ever prepared for a successful run. Then look out for new life and activity.

Messrs. Teft & Geldmacher have almost finished their 300 foot contract for J. I. Jones on the "Confidence" mine. It is said that they have found a very large body of rich ore.

Jennings Bros and Bruneau have everything in readiness for the erection of a large ore bin on their valuable property, the Helena, as soon as spring opens. A force of men has been pushing development work all winter.

The Music mine, the oldest dividend payer in the camp, is preparing for an early run in the spring. They are now filling ore bins and blocking out ore bodies. As soon as the snow disappears so that they can haul in a few pieces of machinery their new ten stamp mill will be ready for operation.

The Graber Bros. are pushing work on their tunnel on the Hiawatha claim. These gentlemen last fall bonded this property to some Eastern capitalists who contracted with the Graber Bros. for driving a tunnel on the property. The boys are doing well and showing up some nice ore.

Mrs. Edith Stephens has done considerable development work on her group of claims known as the Holy Smoke, Gold Medal and Onyx. The ledges in all three of these claims are well defined, carry free gold and are 3 and 4 feet wide. In connection with this group is a first class mill site with a great abundance of water and timber. Mrs. Stephens is the only lady in the camp who owns and works mining claims, so far as the knowledge of your correspondent goes. It is a sure thing that she has a valuable property in this group, and who says nay, that she will not meet with all the success imaginable.

American names to complete their transformation.

The Asiatic fleet looks like a regular Spanish Armada with ships called the Culgoa, Barcello, Callao, Don Juan de Austria, Isla de Cuba, Leyte, Manila, Mindanao, and one or two "low rakish crafts" which have no names at all, but look suspiciously like the ancient "terrors of the Spanish main." Then, for good measure, there are

two Chinese names in Dewey's list, the Nanshan and the Zafiro.

In connection with this news from Manila, a friend at our elbow says: "This will hardly do. There are plenty of good American names. The navy department should instruct Admiral Dewey to paint some new signs on his armada."—Statesman.

How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by the Benson Drug Co., Cottage Grove and Joe Lyons of Drain.

I take particular pains to keep the best and freshest rolled oats, Grandma's mush, Germes, morning meal, fresh corn meal and buckwheat flour. F. B. Phillips.

Active Solicitors Wanted Everywhere

For "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with Gen. Merritt, in the hospital at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camp with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of the battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book; low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

To the Public.

We are authorized to guarantee every bottle of Chamberlain's Cough Remedy and if not satisfactory to refund the money to the purchaser. There is no better medicine made for la grippe, colds and whooping cough. Price 25 and 50c per bottle. Try it. For sale by the Benson Drug Co., Cottage Grove and Joe Lyons of Drain.
