

Things Theatrical.

It is hinted that a local dramatic company of this city, now in rehearsal of a well known and popular play, will produce the same in about two weeks. Report says that the Saginaw people also have a weakness for the "boards" and that they, too, have organized a dramatic company, and now have in rehearsal "Among the Breakers" one of the best amateur plays ever written. It has been said that they may decide to reproduce "Among the Breakers" here. In that event, they will doubtless draw a good house, for it is understood the city of saws and mills has some excellent local talent. And now it is said that the Webber Dramatic Company is soon to open at the Davis Hall. This company has been upon the road for 10, these many years, and are now becoming quite well known throughout Willamette valley in the small towns. While their productions are not considered first class, they do manage to give a pretty good entertainment, and their prices are within reach of the public. Speaking of theatrical productions reminds one that it is to be regretted that Cottage Grove support will not justify first class companies booking here. The few good companies that do stop here are usually poorly supported, while a fake could hit the town every week and turn our pockets wrong side out.

Shooting Accident.
Last Friday evening Chas. Stanton of Saginaw who had been in the city for the day started to return to Saginaw. When about 300 yards down the track, a revolver which he had been carrying in the waistband of his trousers dropped to the ground. The gun was discharged and the ball penetrated his leg about four inches above the ankle and to the rear, taking an upward course, and came out just under the knee joint. Mr. Stanton was conveyed to the Sherwood hotel where Dr. Wall treated the wound. With careful treatment he will probably be able to be out in the course of a week.
