The Oregonian.—

And the Bohemia Nugget for \$2 per year, cash in advance. This is without doubt the greatest clubbing offer offered by Oregon newspapers today. The Oregonian is without doubt excelled by none, in point of news both local and foreign, is a clear print, and besides has that great redeeming feature, devoid of sensational and disgusting literature. Remember the two papers, the Weekly Oregonian and your home paper the Bohemia Nugget for \$2.

THE BOHEMIA MINES.

News From the Rich Mining Fields of Lane County—Rich in Copper.

It now transpires that the Bohemia mines are not only rich in gold and silver, but that according to recent developments copper is to be found in abundant quantities. Chas. Geldmacher and H. D. Tefft, who have just completed a contract for J. I. Jones on his Confidence mine, whereby they have done 300 feet of developing work on the vein as well as 40 feet of cross-cutting, were in the city this week, and when they came down they brought out some fine specimens of copper ore as was ever turned out to the sun.

In conversation with a Nugget man Mr. Geldmacher, who has been in many of the most promising mines throughout the United States, said that, in his opinion there were very flattering prospects ahead of the Bohemia district, and in speaking in particular of his recent work there and of the copper development he said that it was indeed very fine and that the ore proves itself to be of an excellent quality showing all the way from 6 inches to 5 feet in ledge 14 feet in width.

Speaking of other work going on up there the gentlemen said that the Noonday is still doing developing work, blocking out a high quality of ore and hustling things right along.

In the Musick, the crew is hard at work on development work, the result of which is a very excellent quality of highly satisfactory ore. They are now anxiously awaiting for good weather, and as soon as it comes, their machinery will be hauled in on double quick time and then things will commence to go with a rush.

In the Zineker Bros. mines work has been progressing all winter with a vim, and while they have met with many obstacles having had an enormous amount of hard dirt to go through, the result of the winters work is perfectly satisfactory. In some instances the ground through which they have had to work has been so extremely hard that they could make only two or three feet per week.

Harlow and Stocks made a mill run last fall, which came up to their most sanguine expectations. They would have continued all winter but were compelled to close down the mill work owing to a shortage of wood. They have an excellent showing of ore.

Al Churchill has a splendid showing and has been doing considerable development work this winter, and expects to return right away and continue the same. Mr. Churchill's property is highly spoken of.

J. I. Jones, who is quite extensively interested in mines in the Bohemia district, contemplates hustling the work on his holdings this season, and is already making arrangements with that end in view.

The Grizzly Creek group of mines owned by J. C. Klopfenstein, Al Johnson, Byrne Bros. and Henry Jonsson, as jolly a gang of boys as one will find in any "diggings," is considered one of the best properties in the district, and is developing as fine specimens of copper ore as one would care to see.

It is rumored that John Petterson, of the Musick, recently got caught in a snow slide. However this is only a grapevine report.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. STRAUD, Popomoke City, Md. For sale by BENSON DRUG CO, Cottage Grove. Jor LYONS, Drain Druggist.

A BIG TIMBER DEAL.

Booth-Lumber Company Makes a Large Purchase.

The following dispatch is self explanatory:

SAN FRANCISCO, April 1.—One of the biggest deals in timber lands in Oregon, made in some time, was consummated Friday in the purchase, by the Booth-Kelly Lumber Company, from the Southern Pacific Company, through W. H. Mills, of a large tract of land in Lane county, the consideration being \$121,299. The lands purchased are tributary to Mill Creek, and are located east of, and about sixteen miles from Coburg, the terminus of the Oregonian railway on the east side, which runs out from Portland. It is the purpose of the Booth-Kelly Company to construct a railroad from their newly-acquired lands to Coburg, and the road may ultimately be extended westward to connect with the main line of the California & Oregon railroad, about five miles north of Eugene city. This enterprise means the employment of a large amount of capital, and a large number of men. The company expects to cut 1,000,000 feet of lumber during the season.
