FRIDAY, MAY 5-1899.

A movement is on foot to secure a night watch for Cottage Grove. The city council cannot see its way clear at present to pay a man a sufficient amount to justify him in taking the position, and so a petition, is being circulated asking business men and property owners to subscribe whatever amount they feel able. There is one thing sure Cottage Grove needs a night watch, and when the business men have been thoroughly canvassed, the subscription paper should be presented to the city council in chambers, and invite the municipality to chip in. It should be the aim of the citizens and council to make the amount raised monthly sufficiently large to make the night watch position a desirable job. Then the man who gets the position will be pretty apt to do his duty. No man is going to jimmy around day and night and take the responsibility of keeping order and protecting property unless there is something in it.

Governor Geer commuted Douglas county's murderer's sentence of death to life imprisonment last Thursday night a week ago. In so doing he laid himself liable to just criticism and is getting it, although no doubt the governor was conscientious in pardoning the murderer. Its time we should do away with either the supreme court in murder cases or else take the pardoning power away from the governor. The court is supposed to know its business and know it thoroughly, and does not need the assistance of the governor. Justice is justice and should be meted out even handed.

The editor of the Leader, in last week's issue apologizes (which was altogether unnecessary) to the Register and Nugget. Now if he will apologize to the administration which is at the head of this government by the free will and vote of the very people who have and are still providing this anarchistic editor with bread and butter, he will at least assume a virtue if he has it not.

When the boys get home from Manila, they will have a better conception of and will be instrumental in voicing the debt of gratitude, this country owes to her soldiers of the civil war. A soldier's life at its best isn't pleasant and every old soldier who draws a small monthly income from the government paid for it time and time again when in the service.

W. C. Conner has disposed of his Myrtle Point Enterprise to G. M. and J. C. Roberts. Mr. Conner is now connected with the Roseburg Plaindealer, a good indication for that paper. The gentlemen who have purchased the Enterprise are getting out a neat and attractive paper and certainly merit the support of the Myrtle Point people.

It is said that when the soldiers are mustered out of service and given their discharges, they are to be given a physical examination. This is a good thing and will settle to a great degree their right to pension privileges.

AN OPEN LETTER.

Fermentation is the beginning of disease. Disease is the result of the action of microbes. Microbes as atoms float in the air we breathe. Therefore every person is subjected to their fermenting and decaying influence. This fermenting, decaying and disease principle, if not destroyed, induces sickness, pain and suffering of the human body.

Radama Microbe Killer, a combination of gas and water, a powerful yet harmless antiseptic, will prohibit fermentation, prevent decay, and destroy the disease in the human body. Drink it freely and with patience, give it time to cleanse the body, and you will be free from sickness.
