FRIDAY, MAY 5—1890.

A movement is on foot to secure a night watch for Cottage Grove. The city council will be called to order at 7:30 this evening and it is hoped a direct at present to pay a man a sufficient amount to justify him in taking an active interest in the matter. That there is a feeling among business men and property owners to SECURE whatever amount they feel able. There is one thing sure that Cottage Grove needs a night watch, and when the business men have been thoroughly canvassed, the subscription paper should be presented to the city council in chambers, and invite the municipality to chip in. It should be the aim of the citizens and council to make the amount of money contributed sufficiently large to make the night watch a position of a desirable job. Then the man who gets the position will be pretty apt to do his duty. No man going to Jimmy account and night and take the responsibility of keeping order and protecting property unless there is something in it.

Governor Geer commented on Douglas county's murderer's sentence of death to life imprisonment last Thursday night a week ago. In so doing he laid himself liable to just criticism and is in the process, although no doubt the governor was conscientious in pardoning the murderer.

Just at this time we shall have a battle with either the supreme court in murder cases, or with death taking the powder away from the power court. The court is supposed to know its business and know it thoroughly, and does not need the assistance of the governor. Justice is justice and should be meted out even handed.

The editor of the Leader, in last week's issue (apologies which (was altogether unnecessary) to the Register and Nugget. Now if he will apologize to the administration which is that head of this government by the free and vote of the same people, who are still providing this anarchistic editor with bread and butter, he will at least assume a villain if he has not.

When the boys get home from Manila, they will have a better conception of the life, and will be better disposed in voicing the debt of gratitude, this country owes to the officers of the civil war. A soldier's life at its best isn't pleasant and every old soldier who draws his pension is entitled to the gratitude from the government paid for it time and again when in the service.

W. C. Conner has disposed of his Myrtle Point property to G. M. and J. C. Roberts. Mr. Conner is now occupying the Rosenau-Wornings residence, a good indication that for this paper. The gentlemen who have sold him the property, are getting out a neat and attractive paper, which will be a credit to the support of the Myrtle Point people.

It is said that when the soldiers are mustered out of service and given their discharge, they are to be given a bonus of $100. This is a good thing and will settle a great degree their right to be privy

S. S. CONVENTION.
To be Held in Cottage Grove May 6 and 7.

AN OPEN LETTER.

Permitment is the beginning of disease. Disease is the result of the unfit condition of the body. Reason states that air in the brain, therefore every effort should be made to fit up the human frame to the best advantage. For years I have been talking on the subject of health and disease, and that this is the disease in the human body. Drink it freely and with patience, give it to the body and you will be free from sickness,

A. V. HOWARD,
Gusman Grove One.
