## PLUNGES INTO A POND

### Electric Car With Passengers Jumped the Track.

#### MANY KILLED AND INJURED

#### Four-Ton Motor Fell Forty Feet Upon the Wrecked Car and Crushed the Helpless Victims.

Bridgeport, Conn., Aug. 8.—Nearly 40 persons were killed by an accident on the Stratford extension of the Shelton Street Railway Company at 4 o'clock today, when a loaded trolley car went off the trestle over Peck's millpond at Oronoque, about six miles north of Bridgeport, and sank in the flats 40 feet below. Thus far 39 persons are known to be dead, and several more injured.

Only two persons are known to have escaped unharmed. It is believed that there were 43 passengers on the car, but the indicator was removed by a conductor of another car and spirited away, so that at present it is impossible to say accurately the number aboard.

The scene of the accident is midway between Shelton and Bridgeport. The car was northbound, running toward Shelton. The trestle is 440 feet long, made of iron, with stone foundations, and was not protected by guard rails. South of the trestle is an incline down which the car ran on the trestle for about 10 feet, the trucks left the rails. The car continued on the ties about 75 feet, when it went off the trestle and dropped into the pond below, overturning and completely upending.

When the car struck, the four-ton motor and the heavy trucks crushed into it, instantly killing many of the passengers. Three physicians, who were passengers on a car a short distance behind, arrived quickly and rendered all possible assistance to the injured.

Word was sent to Bridgeport and three ambulances and a police wagon were hurried to the scene, and the injured were taken to Bridgeport general hospital. A morgue was improvised in the main room of the town hall at Stratford, and in a very short time 23 bodies were laid out awaiting identification.

#### DROWNED IN GROUPS.

#### Disaster to Maine Excursionists at Mount Desert Ferry.

Bar Harbor, Me., Aug. 8.—A score of persons were killed today by the collapse of the gangplank of the Mount Desert ferry. Seventeen were drowned and three died from the terrible experience of immersion in the water and injuries while struggling for life.

The Maine Central today ran excursions to Bar Harbor from all sections of its line in Maine, the attraction being the warships which were expected today. All the morning long trains packed with excursionists were rushing to Bar Harbor.

When the excursion from Bangor arrived at the ferry there was a rush for the steamer Sappho. The first few passengers had crossed the gangplank safely, and it is estimated that 200 people were massed on the plank. Suddenly they felt the plank give way, and a struggling, screaming mass of humanity was plunged into the water, 15 feet below the wharf. A few clung to the inclined sides of the plank, but at least 150 were struggling in the water. The piling of the wharf partially penned them on three sides, and the boat lying at the wharf closed the outer end of the opening.

After the first moment of stupefaction the work of rescue began. Ropes and life preservers were thrown to the crowd, but in the panic the people in the water clutched one another and many sank in groups in a death grip. The exact number of dead will not be known for some time yet, as a strong tide sweeps under the pier, and the bodies may have been carried away by it.

#### YAQUIS PREPARED FOR WAR.

#### It Will Take the Mexican Government a Long Time to Whip Them.

Austin, Tex., Aug. 8.—A special received here today from Terrazas, Chihuahua, Mexico, which is located near the scene of the Yaqui uprising, is to the effect that the Indians are arranging for a prolonged war. The special says:

"It is going to take the Mexican government a long time and a big force of troops to quell the rebellion. The Yaquis are better prepared now than ever before for a long and bloody campaign. They are all well fixed financially, nearly all of them having saved the \$200 per head which the Mexican government paid them when they signed the treaty of peace two years ago. They have been making since then, too, and it is known to be a fact that they have been laying in big supplies of arms and ammunition for some time past. It has been common talk among the American prospectors in the Yaqui valley that the Indians were preparing for another outbreak, but as the braves had always shown a friendly spirit toward the Americans, it was thought they would not molest them when they did go on the warpath.

### SANTA TERESA IS BLAMED.

#### Mexican Sorceress Believed to Have Incited Riot Men to Riot.

St. Louis, Aug. 9.—A special to the Republic from El Paso, Tex., says: Santa Teresa, the Mexican woman who has long been revered as a saint by the natives of Chihuahua and Sonora, and who is believed to possess the power of healing the sick by the laying on of hands, is believed to be more or less responsible for the present outbreak among the Yaqui Indians.

George Harold, an old Texas ranger, now a policeman at El Paso, says that he is confident that Santa Teresa is responsible for the outbreak. Harold is one of the officers who rounded up the one of the ringleaders that raided the Mexican customhouse at Palomas, Chihuahua, a few years ago.

"Santa Teresa," he said, "was implicated in that rebellion, which was crushed in its incipency. Every rebel captured on this side of the line had a picture of the woman in his possession, and on the back was inscribed one of her prayers."

After the Palomas raid the Mexican government made an effort to apprehend her, as she was looked upon as a dangerous character. She escaped to El Paso, however, and remained here a year or more. While here she was visited by thousands. About a year ago the woman disappeared from this locality and it afterwards turned out that she had gone to Sonora, and had taken up her abode in the edge of the Yaqui villages, where she was safe from molestation by the Mexican government.

It is believed she incited the Yaquis to revolt. The woman is described as frail and delicate looking. She undoubtedly possesses great magnetic powers. Harold and others are confident that her presence in the Yaqui country had a great deal to do with the uprising now assuming alarming proportions.

#### SEIZED BY MOROS.

#### Savages of Balabac Captured a Light-house. But Were Routed.

Washington, Aug. 9.—The following dispatch was received from Admiral Watson, in command of the Asiatic station:

"Secretary Navy: Nazro, the commander of the Manila, on July 7 re-established the lighthouse at Cape Melville, Balabac, Philippine islands, and hoisted the flag with appropriate honors. July 13, on his return, 13 Moros, under arms, were found to be in possession of the lighthouse. The landing party, commanded by Ensign E. L. Bissett, encountered resistance. No casualties in our party. Loss in killed, one officer and one man of the enemy; Diegoago Manilo, chief of the Balabac Moros, was killed, and seven men taken prisoners; two escaped. The chief of the party was very unpopular with the people of Balabac owing to fear of him. The light has been restored. The Manila has landed a force. The Charleston is on her way to Balabac, and will render all assistance possible. WATSON."

The island of Balabac, the scene of the brush with the Moros, detailed in Admiral Watson's dispatch, is situated southeast of the island of Palawan, which is the most westerly of the Philippine islands, and directly west of the island of Panay.

#### HAD HIS EYE ON MANILA.

#### Dewey Wanted to Capture the City a Quarter of a Century Ago.

Washington, Aug. 9.—An interesting historical fact dating back to 1873, has come to light, in which Admiral Dewey was the central figure. Dewey, then a commander, was in command of the United States ship Narragansett, on the Asiatic station, having taken charge of the vessel March 1, 1873. The vessel was on surveying duty when the Virginia trouble was precipitated and a war with Spain seemed imminent. Commander Dewey wrote to the navy department requesting that in case of war he should be assigned to the duty of capturing Manila. The peaceful settlement of the controversy with Spain avoided the necessity of hostile demonstration, but the interesting fact is that the doughty officer had his eye on Manila over a quarter of a century ago. A search will be made for the letter in the files of the navy department and if found it is expected an effort will be made by the citizens committee to have it reproduced as a souvenir of the reception to be tendered Admiral Dewey upon his arrival here.

#### Fight for Steelheads.

Astoria, Aug. 9.—The fight for steelheads is still in progress, and the buyers for Trescott and Alter were reported to be paying 12 cents last night, and willing to go as high as 15 cents. Very few are being caught, so not much money is being paid out. The run of chinook salmon has fallen off considerably, and the quality is not as good as it has been.

#### Escaped From Lynching Party.

Birmingham, Ala., Aug. 7.—John Thomas, a negro charged with attempting to assault the wife of a prominent citizen of Cuba, Ala., was surrounded in a swamp last night by a lynching crowd and wounded during a running fight. He finally managed to escape with the posse in hot pursuit. He wounded several of his pursuers.

## FROM SOLDIER TO CIVILIAN

### Oregon Volunteers Were Mustered Out.

#### GOT DISCHARGES AND PAID

#### General Summers in His Farewell Talk to the Troops Gave Them Words of Some Advice.

San Francisco, Aug. 9.—They are citizens now, and the gallant Oregonians are no more. The men who took up the burden over a year ago for their nation and their Oregon only saw their release. It was a day of jubilation and excitement.

Each man received his discharge papers from the mustering officer, passed on to the paymasters, who gave each soldier what money was due him. There have been none of those terrible thrashings promised non-coms and officers, nor even an example of the mild revenge, blanket-throwing, etc., and men were glad their term was over. They joined in the final ceremonies with feelings of regret at parting and evidences of pleasure at getting back to civil life.

General Summers gave each of the battalions a farewell address that called forth tremendous cheering. He recalled the faithfulness with which the men had obeyed him at times under most trying circumstances, and the mutual trials. He most cordially thanked all for support and consideration at all times. The general closed with the statement that he felt most closely bound to them all, and he wanted them to feel he would ever be willing to afford assistance to members of his old command.

He cautioned them not to do anything in the short time that remained before they are finally disbanded to reflect on the excellent record they have made, and also to be on the lookout that no one should take undue advantage of them. General Summers, who is very popular, was enthusiastically cheered by the men of his command.

He asked the members of the regiment, so far as was possible without inconvenience to themselves, to follow the colors until finally delivered to the governor. This he asked as a personal favor, and the request will hold many for the special train tomorrow afternoon who would have straggled home.

Each of the three majors gave their battalions farewell talks. A desire was expressed to know the boys in civil life more intimately than was possible under military regulations.

Chaplain Gilbert was made the happiest man in camp by an evidence of the regard in which he is held by the men, in the form of \$200 as a library fund. The little, tender-hearted chaplain, who has buried the fallen comrades, often taking hold of the spine himself, is universally esteemed, and says he prizes the affection of the men more than any past favor. There were swarms of sharpers and scheming men about, but no undue disturbances. Cheers resounded from every quarter. Favorite officers were cheered and cheered again. Many partings were touching, although the light-hearted soldier is not often deeply moved. All are anxious to arrive home.

Nebraska's band and the Utah light artillery have kindly offered their services to escort the members on the march from the Presidio tomorrow. All are expected to assemble there at 1 P. M., after which the march will be immediately taken up.

The three specials bearing 730 members of the regiment as a body, left the first at 3:30, another at 4, and the last at 4:30. Other members of the regiment are now on their way, while the rest will leave within the next few days.

Fortunately, at the last moment the 18 hospital corps men learned that they would get their discharges about as soon as the regiment. Their funds will be cashed early tomorrow, enabling them to return with the command.

#### BRIDGEPORT DISASTER.

#### Motorman of Ill-Fated Car Charged With Manslaughter.

Bridgeport, Conn., Aug. 9.—An open trolley-car of the Shelton Extension Company, twisted, bent and smashed almost into kindling wood, lying in the middle of Peck's mill pond at Oronoque, about six miles north of here, this morning, is the only visible indication of the frightful accident of yesterday, when 29 lives were lost and about a dozen people seriously injured by the car tumbling off the trestle which crosses the pond at this point. All sorts of theories have been advanced regarding the cause of the accident. Engineer Starr who superintended the building of the bridge, today said it was perfectly safe in every respect. In his opinion, after a thorough examination, the motorman became bewildered as the car commenced to travel fast down the incline, and finding himself in a dangerous situation, lost his head and turned the current on instead of reducing it.

George Hamilton, the motorman of the ill-fated car, was arraigned in the Stratford justice court tonight, charged with manslaughter. He pleaded not guilty and the case was continued for one week.
